State Facilities Board – Pennsylvania

Purpose:

- The SFB assists in carrying out the policy stated in Section 18231 of Title 10, U.S.C.1823
- The SFB will consider the joint use of facilities by units of two or more RCs, to the greatest practicable extent for efficiency and economy.

Mission:

The mission of the SFB is to maximize use of RC land, facilities, and installations by promoting joint use by two or more components (AC and/or RC) and reuse of existing vacant or underutilized facilities.

State Facilities Board – Pennsylvania

Lines of Effort

1. Review all future RC MILCON requirements within their State to identify potential joint construction projects
2. Review future RC operations and maintenance (O&M) construction requirements within their State to identify joint construction projects where potential exists
3. Recommend joint construction or justify the need for unilateral construction for each requirement (Included in the SFB minutes)
4. Identify additional joint opportunities to leverage efficiencies across the RC facilities programs, such as space utilization; energy and sustainability; maintenance services; contract services; and partnerships
5. Identify vacant or underutilized facilities for possible reuse
6. Identify available land for potential real property actions with other RCs
7. Share initiatives across RCs within their respective State to improve facility efficiencies and readiness across all components
