Report No. 94-057

March 17, 1994

**MEMORANDUM FOR COMMANDER, FIRST MEDICAL GROUP, UNITED
STATES AIR FORCE HOSPITAL, LANGLEY AIR FORCE
BASE, VIRGINIA**

**SUBJECT: Audit Report on Cash Accountability in the Department of Defense,
Imprest Fund Maintained Within First Medical Group, Langley Air Force
Base, Virginia (Project No. 3FG-2019.03)**

Introduction

We are providing this final report on the subject audit for your review. The total value of the audited imprest fund was \$1,000. This report is part of our audit of cash accountability within the Department of Defense, and the results of this audit will be included in a consolidated report.

Audit Results

Our surprise audit on December 8, 1993, disclosed no discrepancies in the handling of funds in the imprest fund. The cash and amounts on vouchers on hand in the fund when the count was made equaled the amount of money authorized to be in the fund. Control over the fund was adequate in that vouchers were properly approved, disbursements were made only for authorized purchases, and disbursements were supported by receipts.

Objectives

Our objectives were to verify the accountability for cash and related assets and to evaluate the adequacy of procedures used to determine the accuracy of records used to support cash accountability at Department of Defense accounting offices and organizations with imprest funds. We also assessed compliance with applicable laws and regulations, and evaluated the Internal Management Control program management as it pertained to the audit objectives.

Scope and Methodology

This financial related audit was made of the imprest fund maintained at the First Medical Group of Langley Air Force Hospital, Langley Air Force Base, Virginia, the only site we visited. The imprest fund is part of Disbursing Symbol Station Number 6707. We made an unannounced cash count December 8, 1993, of the imprest fund valued at \$1,000, and reviewed the vouchers and receipts on hand in the fund. We also reviewed the DD Form 1081, "Statement of Agent Officer's Account," and verified the appointment letters establishing the principal imprest fund cashier and the

alternate cashier. This audit was made in accordance with auditing standards issued by the Comptroller General of the United States as implemented by the Inspector General, Department of Defense, and accordingly, included such tests of internal controls as were considered necessary. No computer-processed information was involved.

Internal Controls

Internal controls over the imprest fund were adequate in that the vouchers in the fund were properly approved and purchases were for authorized items and were supported by receipts. Physical controls over the imprest fund cashier area and procedural controls over security, including the opening and closing of security containers, were in place. Regulations require that combinations for safes and vaults be changed at least every 12 months, and the combinations were changed as required. Cash verification files for the previous 12 months confirmed that unannounced cash counts by teams appointed by the base commander had been accomplished. The Internal Management Control program generally complied with applicable regulations.

Prior Audits and Other Reviews

The Air Force Audit Agency performed an imprest fund audit in 1992 and found no discrepancies. That agency issued Audit Report No. 51293021, "Cash Operations and Reporting of Payments and Collections, Defense Accounting Office, Langley AFB VA 23665-5000," March 12, 1993 (Project 92545068).

Background

The Defense Finance and Accounting Service has overall responsibility to manage Department of Defense cash and related assets. Policies and guidance governing imprest funds are set forth in the Federal Acquisition Regulations and Department of Defense Directive 7360.10, "Disbursing Policies," January 17, 1989. Payments from the funds are to be made only for goods or services procured by properly authorized personnel and for payment of travel expenses in accordance with joint travel regulations.

Discussion

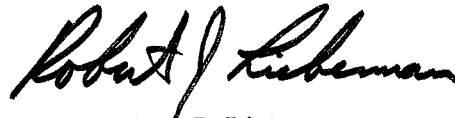

The review of documentation in the fund included a determination that vouchers had proper approval, that receipts were available, and that totals of vouchers and cash on hand equaled the amount of money authorized in the fund. Payments were for goods and services procured by authorized personnel and for payment of travel expenses. In addition, internal controls over the imprest fund

were adequate, and the DoD Internal Management Control Program framework was in place. The imprest fund was also in compliance with key laws and regulations applicable to cash management.

Management Comments

This report does not contain any recommendations. Accordingly, comments pursuant to the provisions of Department of Defense Directive 7650.3 are not required. However, if you choose to respond, please do so by May 16, 1994.

The cooperation and courtesies extended to the auditors during this audit are appreciated. If you have questions about this audit, please contact Mr. F. Jay Lane at (703) 693-0430 (DSN 223-0430). The distribution of the report is in the enclosure. A list of audit team members is inside the back cover.
