Arnold Air Force Base has implemented the Malicious Call Trace (MCT) feature to be used only for bomb threats, 911 hang-ups or other emergency type calls. Once activated it will send a printed report directly to Security Police showing both the calling and called parties. The feature can be activated while the call is in progress by pressing *57 on the telephone key pad.

REPORT THE CALL TO ARNOLD POLICE 931-454-5662;

AFOSI 931-454-7820; OPS CENTER 931-454-7752

IMMEDIATELY

 - Go to Safety & Health web site for map to determine your Safety or Health Representative

GENERAL INFORMATION SECTION

DIRECTORY INFORMATION

The Arnold Air Force Base telephone directory is provided for you our valued customer. The directory is produced from information obtained from your organization. The directory can be found on the Team AEDC site. A public version of the directory can be found on the Arnold AFB Public Website at <http://www.arnold.af.mil>. Arnold Air Force Base utilizes a 7-digit dialing plan. All of the 4-digit extensions listed in this directory must be preceded by 454 when dialing.

PROMOTING GOOD TELEPHONE SERVICE

Our switchboard operator will provide you the fastest and most efficient service possible. AEDC only has one part-time operator on duty. Please do not ask for services you can do yourself. Please report incorrect numbers to the Help Desk @ 454-4040 or via AEDC Help Desk Form on the Team AEDC site.

MILITARY TELEPHONE SYSTEM

Military telephones and voice systems are authorized for **OFFICIAL USE ONLY** and must be restricted to calls essential to the accomplishment of the mission.

TELEPHONE MONITORING

DoD telephones are provided for the transmission of official government information only and are subject to communications security monitoring at all times. Use of official DoD telephones constitutes consent to communications security telephone monitoring per DoD Directive 4640.6

DIALING PROCEDURES

Emergency Calls

On Base	911
Housing	911

Local Calls - On/Off Base

1. Base Extension to Base Extension dial appropriate 7 digit number
2. To call from on-base to off-base into the local area dial 99 + 7 digit number
3. To call AEDC from off-base outside the local area, dial 931-454-XXXX
4. Toll free calls include the following cities and preface:

City	Preface
Hillsboro	596
Lynchburg	632, 759
Manchester	253, 723, 728
Normandy	857
Pelham	467
Shelbyville	212, 561, 580, 607, 619, 639, 680, 684, 685, 778, 808
Tulahoma	393, 454, 455, 461
Wartrace	389
Winchester	632, 962, 967, 968

Long Distance Calls

Official long distance toll calls should be made only when DSN or toll free (800/877/888) connectivity is not available at the distant end.

PIN Numbers: Personal Identification Numbers (PINs) are required to make outgoing official long distance calls from AEDC. PIN numbers cannot be used away from AEDC. PIN requests require supervisor approval.

- | | |
|------------------|-----------------------|
| 1. CONUS | 98-1-XXX-XXX-XXXX-PIN |
| 2. International | 98-011-XXX-PIN |

Defense Switch Network (DSN)

DSN is the principal voice communications network within the Defense Communications System. Usage is limited to Official Government Business. Transferring toll calls into or out of the DSN is prohibited.

- | | |
|----------------|-----------------|
| 1. CONUS | 94-XXX-XXXX |
| 2. OCONUS | |
| Caribbean | 94-313-XXX-XXXX |
| Europe | 94-314-XXX-XXXX |
| Pacific | 94-315-XXX-XXXX |
| Alaska | 94-317-XXX-XXXX |
| Southwest Asia | 94-318-XXX-XXXX |
| Canada | 94-XXX-XXXX |

PAGING INSTRUCTIONS

1. From on Base 454-7243 (PAGE)
 2. From off Base local calling area 454-7243
 3. From off Base outside local area 931-454-7243
- At the tone enter the pager number

SECURE VOICE

Classified information should not be discussed or revealed over the administrative telephone system. If a classified subject must be discussed, most organizations have a Secure Telephone Unit (STU-III) or Secure Telephone Equipment (STE). If you don't have access to a STU-III or STE, one is available in the Defense Messaging System Center (ext. 454-5600).

SERVICE PROBLEMS

Persons other than authorized telephone maintenance personnel are prohibited from installing, repairing, moving or otherwise modifying telephone equipment.

1. Report telephone troubles to the trouble desk at 454-4040. Troubles will be repaired within two workdays.
2. Request for telephone installations, or modifications are submitted by calling 454-4040. Request for new service will normally be completed within 5 workdays or an agreed upon date.
3. Request for telephone relocations are submitted by completing the AEDC Move Request. The form is located on the Team AEDC Home Page under the Request Services tab.

NUISANCE AND BOMB THREAT CALLS

Malicious, threatening, or abusive calls, including the use of obscene or profane language are prohibited. If you receive one of these calls, follow these steps while the call is in progress:

- From a digital or multi-line phone, press the Conf key and then dial *57 on the keypad
- From a single-line phone, press the Link or Flash key (or quickly press the switch hook) and dial *57 on the keypad.

By activating this feature, Security is immediately notified and the caller's telephone number is captured. When the call ends contact Security Police at 454-5662.

Procedures for correct handling of a Bomb Threat or Suspicious Telephone Caller (AEDC896) should be posted for your convenience by each telephone and can be found on pages 3 - 6 of this directory.

TELEPHONE SERVICE FEATURES

The following instructions describe service features of the base telephone system. Additional features not listed in this directory are described on the Team AEDC Home Page. The link is located in the Emergency Numbers block by clicking on Telephone/Voice Mail User Information.

Call Transfer

For single line telephones – Press the FLASH or LINK key or flash the switch hook (depress the switch hook and release it). The user will hear confirmation tone (3 beeps) followed by dial tone. Dial the number you wish to transfer to and hang up.

For multi-line telephones – Press the transfer key; dial the number you wish to transfer the call to and press the transfer key again. The call is then transferred.

Call Forwarding

For single line telephones – To redirect incoming calls to another extension, lift the handset and dial # 1. You will hear dial tone. Dial the extension number that will receive all of the forwarded calls and hang up. To cancel call forwarding, lift the handset and dial #1 and hang up. While your single line telephone is forwarded, you will hear an interrupted dial tone to remind you that the feature is activated.

For multi-line telephones – Press the FORWARD button, dial the extension number that will receive the forwarded calls, and press the FORWARD button again. To cancel call forward, press the FORWARD button.

Conference Calls

A conference call with up to 6 parties can be established using your telephone. To add a new party to an established call on a multi-line set, follow these steps:

1. Press the "Conference" key. The first party is then on hold and you receive dial tone.
2. Dial the number of the new party
3. When the new party answers, press the "Conference" key to include all parties in the call.
4. To add more parties to the conference (up to 6, including you), repeat steps 1 - 3.
5. Note: If you make a mistake while dialing or receive a busy signal, press RIs or Goodbye to disconnect. To return to the call, press the key beside the fast flashing indicator.

To add a new party to an established call on an analog single line set, follow these steps:

1. Press the FLASH or LINK key or flash the switch hook (depress the switch hook and release it). You hear confirmation tone (3 quick beeps) followed by dial tone. The first party is on hold.
2. Dial the number of the new party.
3. When the new party answers, press the FLASH or LINK key or flash the switch hook to include all parties in the call.
4. To add more parties to the conference (up to 6 including you), repeat steps 1 – 3.

A conference bridge is available for up to 36 participants. Contact the Help Desk at least 24 hours before the start of the conference with the details, i.e. date, time, length of conference and the number of participants. Also indicate if access to the conference needs to be password protected. A conference can also be set up by customers using the instructions on the following page.

ARNOLD AIR FORCE BASE TELEPHONE CONFERENCE BRIDGE

Overview

The telephone Conference Bridge at Arnold Air Force Base provides a menu-driven Telephone User Interface (TUI) that enables customers to initiate commands through a base telephone keypad to schedule telephone conferences. Simply dial a unique telephone extension to access the TUI service, and then schedule a conference by following the voice menu's instructions. If you prefer not to use the TUI service, simply call the Help Desk @ 454-4040 with the details of the conference request. You will need to provide the date and time of the conference and the number of participants. Telephone Services will contact you with the number needed to call the Conference Bridge and the password. If you would like to schedule the conference yourself, follow the steps below.

Scheduling a conference

When prompted by the voice menu, insert the conference parameters through the telephone keypad. The Conference Bridge provides messages when an error is made.

Note: You have up to seven minutes to schedule a conference with the TUI. After seven minutes, the Conference Bridge plays a voice message indicating that the allocated time is over. The Conference Bridge then disconnects the call. If a second user dials the TUI telephone extension when the TUI is in use, the Conference Bridge plays a voice message announcing that the port is in use.

Steps

1. Dial the TUI extension 2663 (CONF). Do not dial the 454 prefix.
2. Log in to TUI:
 - a. Enter your TUI user name (2663 again) followed by *.
 - b. Enter your TUI password 73887 (SETUP) followed by *.
3. Set the date of the conference.
 - a. To schedule a conference for today, press **1**.
 - b. To schedule a conference for a specific day, Press **2**. Enter the date by entering two digits for the day, two digits for the month, and four digits for the year, followed by *.
For example, enter **11032004*** for a conference on March 11, 2004.
4. Set up the conference.
 - a. Enter the start time of the conference, in 24-hour format with 15-minute intervals. Enter two digits for the hour (00 to 23) and two digits for the minutes (00, 15, 30, or 45), followed by *.
For example, enter **0945*** for a conference starting at 9:45 in the morning.
 - b. Enter the duration of the conference. The conference can be up to 12 hours in duration, measured in 15-minute intervals. Enter two digits for hours (00 to 12) and two digits for minutes (00, 15, 30, or 45), followed by *.
For example, enter **0215*** for a conference lasting two hours and 15 minutes. The system states the number of available ports.
 - c. Enter the number of participants that will be in the conference (ports that are needed), followed by *.
For example, enter **5*** if five people will be logging in (to reserve five ports).
5. Press **1** to continue entering password lengths for the conference.
6. The system selects the dial in number automatically by pressing **2**.

7. Define password lengths. Enter the password length (4 to 8 digits), followed by *.
8. Do one of the following:
 - a. To confirm the reservation, press **1**.
 - b. To change any of the conference definitions: Press **2**.
The system plays a list of numbers and corresponding definitions. Enter the number corresponding to the definition you want to change.
 - c. To repeat the conference definitions, press **3**.
The system plays a list of the conference definitions. To input all the conference definitions again, without saving the current definitions, press **4**.
The system restarts the scheduling process, starting with step 3.
9. Once the conference has been confirmed, the Conference Bridge will play a list of the attributes of the conference. Please make a note of the number to call in and the password so they can be communicated to the other participants.
10. For questions and assistance, call Telephone Services @ 7902 or 7008.

ARNOLD AFB STANDARDIZED ALARM SIGNALS
FOR ARNOLD AFB ONLY

WARNING OR CONDITION	SIGNAL	MESSAGE	REQUIRED ACTIONS
Weekly Test	One-minute steady siren.	"This is a test. This is a test of the emergency warning system."	None
Tornado Warning	A three- to five-minute steady siren.	"Tornado warning. A tornado warning has been issued for this area. Seek immediate shelter."	Take shelter in the closest building or land depression. If you are in a building, stay there and take shelter in the strongest part of the structure (normally in the lowest level of the building away from outside doors and windows).
Hazardous Material Release	A "whoop" sound, repeated as necessary.	"Hazardous Material Release. A hazardous material release has occurred. Hazardous Material Release."	Stay inside. Close all doors and windows, shut off air conditioning/heating system. (Instructions will be issued depending upon the situation.)
All Clear	Air horn sound	"All clear: The emergency is over. All clear."	Resume normal operations or initiate recovery actions.
Exercise Start	High Low, High Low	"Base exercise. A base exercise is in progress. Base exercise."	Refer to your organizational checklist for your necessary action(s).
Exercise Termination	High Low, High Low	"Exercise termination. The base exercise has been terminated. Exercise terminated."	Resume normal operations.
Attack Warning	A three- to five-minute wavering tone on sirens.	"Attack warning. An attack is imminent. Seek immediate shelter. Attack warning."	Go immediately to one of four designated fallout shelters: A&E (Bldg #100), Mark 1 (Bldg #1075), or "G" Range (Bldg #678).
