COMMANDANT INSTRUCTION 2000.8

Subj: HIGH FREQUENCY (HF) – AUTOMATIC LINK ESTABLISHMENT (ALE)

Ref: (a) Multi-Service Tactics, Techniques, and Procedures for the HF-ALE Radios, COMDTINST M2000.7 (series)

1. PURPOSE. This Instruction establishes Coast Guard management policies for HF-ALE and shall be used in conjunction with reference (a).
2. ACTION. Area, district, and sector commanders, commanders of maintenance and logistics commands, commanding officers of integrated support commands, commanding officers of headquarters units, assistant commandants for directorates, Deployable Operations Group, Judge Advocate General and special staff elements at Headquarters shall insure compliance with the provisions of this Instruction. Internet release is authorized.
3. DIRECTIVES AFFECTED. None.
4. BACKGROUND. ALE communications allow for increased efficiency over the HF spectrum. By providing a real time update of the best frequency from a selected scan list, the reliability and quality of HF communications is increased. From an operator standpoint, ALE communications is similar to using a cell phone. However, from a technical standpoint, maintaining and managing an ALE network is complex. Central management of the overall Coast Guard ALE system is essential to ensure the integrity and efficiency of communications.
5. POLICY.
  - a. Commandant (CG-62) is designated as the Central Manager for all Coast Guard ALE operations. The Central Manager shall:
    - (1) Approve and maintain a sufficient pool of frequencies for ALE use.
