1. PURPOSE.

- a. Information is vital to the success of any organization and provides the basis for management decisions. Specific types of data are needed to meet particular requirements. Information collections are the major means for providing this data. As conditions or needs change, information management must provide for the improvement of collections or systems; it must also provide for the control of information requirements to ensure minimum collection burden is expended and maximum effectiveness obtained.
- b. This Instruction provides policies and guidance for the management and direction of the Coast Guard Information Collection (IC) Program that applies to all Coast Guard units with a requirement to collect information from the public of ten or more persons.

2. ACTION. All Coast Guard unit commanders, commanding officers, officers-in-charge, deputy/assistant commandants, and chiefs of headquarters staff elements shall comply with the provisions of this Instruction. Internet release is authorized.

4. DISCUSSION.

- a. Following references (a) through (g) are mandatory when the U.S. Coast Guard collects information from ten or more members of the public during a twelve month period, regardless of whether the solicitation is mandatory, voluntary, or required to obtain a benefit. Procedures outlined in this Instruction will guide Program Managers (PM), Web Masters, and others to submit required documentation for publication in the Federal Register (FR). This publication requirement affords the public an opportunity to comment on the usefulness of the collection. All collections must be submitted to and approved by OMB prior to soliciting data. Unless exempt as outlined in Paragraph 8 of this Instruction, collecting information without going through the PRA process and receiving OMB approval constitutes a violation and must be reported to Congress.
- b. In order to provide certain services to the general public, the U.S. Coast Guard collects certain information from the public. To ensure the greatest possible public benefit from and maximize the utility of information created, collected, maintained, used, shared and disseminated by or for the U.S. Coast Guard, all such activities are controlled under the provisions of Reference (d). Reference (e) was implemented in 1995 to minimize the paperwork burden for individuals, small businesses, educational and nonprofit institutions, Federal contractors, State, local and tribal governments, and other persons resulting from the IC.
- c. With the proliferation of U.S. Coast Guard directorate/unit Web pages on the Internet, surveys, questionnaires, and electronic forms are increasingly being posted for the public to complete online without following the necessary steps to achieve legal compliance via OMB approval. It is essential all directorates and units recognize and adhere to mandates as outlined in this Instruction to ensure ICs are sanctioned.

5. OBJECTIVES.

- a. To reduce, minimize and control burdens to the public while maximizing the practical utility and public benefit of the information created, collected, disclosed, maintained, used, shared and disseminated by or for the Federal government;
- b. Minimize the cost to the Federal government of collecting, maintaining, using, and disseminating information; and,
- c. Maximize the usefulness of information collected by the Federal government.

6. RESPONSIBILITIES.

- a. The Chief, Office of Information Management (CG-61) is responsible for administering the Coast Guard Information Collection Program and will:
 - (1) Review ICs for conformance with reporting standards;
 - (2) Review recurring ICs at least every 3 years; and,

- (3) Maintain management data on ICs required by the organization.
- b. Paperwork Reduction Act Manager (CG-612). The PRA Manager will:
- (1) Monitor the Regulatory Information Service Center (RISC)/Office of Information and Regulatory Affairs (OIRA) Consolidated Information System (ROCIS) database, interfacing with DHS and OMB to ensure PMs are aware when Collections are due for renewal or amendment.  - (2) Provide advance notification of ICs due to expire to appropriate PMs. If necessary, assign appropriate Office of Primary Responsibility (OPR).

 - (d) Paperwork Reduction Act Emergency Extension, Form OMB 83-E, if applicable. See Enclosure (5);
 - (e) Statement of Justification utilizing the Instruction as outlined in the second page of OMB 83-I. See Enclosure (6). Special care shall be provided in the Burden Hour section of the Statement of Justification;
 - 1) Each collection instrument shall contain a breakdown of their respective Burden Hours.
 - a. Certain collection instruments, such as life-saving equipment, will preclude the PM from conducting an effective Burden Hour breakdown due to the sheer number of individual pieces.
 - b. When this occurs, the PM will group the items in a reasonable manner and count them as one piece of equipment to determine the overall Burden Hour for that group.

- 2) The Burden Hour shall be explicitly outlined indicating the number of responses, the number of responders, and the frequency of the responses.
 - 3) The Burden Hour shall utilize the decimal equivalent vice the fractional equivalent of hours and minutes.
 - 4) The Burden Hour is calculated by multiplying the number of responses, number of responders, and the frequency of responses.
- (f) Information Collection Instruments, as defined in Paragraph 10 of this Instruction;
- 1) New or revised forms associated with the information collection.
 - 2) Surveys and questionnaires.
 - 3) All collections of Personally Identifiable Information (PII) will require Privacy Act Statements associated with the IC.

- (3) When PMs change, ensure that Commandant (CG-61) is notified of the changes to ensure continuity.

e. Program Managers. All Program Managers will:

- (1) Ensure all ICs under their purview conform to standards in accordance with References (a) through (g).

- (3) Inform the PRA Manager of all cancelled ICs, as well as ICs that are combined, or, in the process of being combined.
 - (a) Information Collections that have been incorporated into one primary collection may be cancelled or discontinued upon OMB approval.
 - (b) Combined collections shall be retained for record keeping purposes for a minimum of three years.

f. Unit/Field Commanding Officers(COs)/Officers in Charge (OICs). Unit/Field COs/OICs are not authorized to collect information from ten or more persons without first contacting Commandant (CG-61). This is to ensure that Unit/Field COs/OICs are in regulatory compliance with References (d) and (e).

Exemptions are outlined in Paragraph 8 of this Instruction. There are specific requirements to be followed in requesting and receiving an OMB control number.
- a. The PM (or OPR of a proposed or recurring IC) will submit completed documents to the PRA Manager as outlined in Paragraph 6.b(4) of this Instruction. Failure to submit proper documentation, in a timely manner, will result in the cancellation of the IC.

 - c. The PRA Manager will provide any assistance necessary to the PM in completing the IC requirement.

SUPPORTING STATEMENT FOR
TITLE OF COLLECTION
OMB Control No.: XXXX-XXXX
COLLECTION INSTRUMENT(S): PLEASE LIST

A. Justification

1. Explain the circumstances that make the collection of information necessary. Identify any legal or administrative requirements that necessitate the collection. Attach a copy of the appropriate section of each statute and regulation mandating or authorizing the collection of information.

"RESPONSE"

2. Indicate how, by whom, and for what purpose the information is to be used. Except for a new collection, indicate the actual use the agency has made of the information received from the current collection.

"RESPONSE"

3. Describe whether, and to what extent, the collection of information involves the use of automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses, and the basis for the decision for adopting this means of collection. Also describe any consideration of using information technology to reduce burden.

"RESPONSE"

4. Describe efforts to identify duplication. Show specifically why any similar information already available cannot be used or modified for use for the purposes described in Item 2 above.

"RESPONSE"

5. If the collection of information impacts small businesses or other small entities (Item 5 of OMB Form 83-I), describe any methods used to minimize burden.

"RESPONSE"

6. Describe the consequence to Federal program or policy activities if the collection is not conducted or is conducted less frequently, as well as any technical or legal obstacles to reducing burden.

"RESPONSE"

7. Explain any special circumstances that would cause an information collection to be conducted in a manner:
- Requiring respondents to report information to the agency more often than quarterly;
 - requiring respondents to prepare a written response to a collection of information in fewer than 30 days after receipt of it;
 - requiring respondents to submit more than an original and two copies of any document;
 - requiring respondents to retain records, other than health, medical, government contract, grant-in-aid, or tax records for more than three years;
 - In connection with a statistical survey, that is not designed to produce valid and reliable results that can be generalized to the universe of study;
 - requiring the use of a statistical data classification that has not been reviewed and approved by OMB;
 - that includes a pledge of confidentiality that is not supported by authority established in statute or regulation, that is not supported by disclosure and data security policies that are consistent with the pledge, or which unnecessarily impedes sharing of data with other agencies for compatible confidential use; or
 - requiring respondents to submit proprietary trade secret, or other confidential information unless the agency can demonstrate that it has instituted procedures to protect the information's confidentiality to the extent permitted by law.

"RESPONSE"

8. If applicable, provide a copy and identify the data and page number of publication in the Federal Register of the agency's notice, required by 5 CFR 1320.8(d), soliciting comments on the information collection prior to submission to OMB. Summarize public comments received in response to that notice and describe actions taken by the agency in response to these comments. Specifically address comments received on cost and hour burden.

Describe efforts to consult with persons outside the agency to obtain their views on the availability of data, frequency of collection, the clarity of instructions and recordkeeping, disclosure, or reporting format (if any), and on the data elements to be recorded, disclosed, or reported.

Consultation with representatives of those from whom information is to be obtained or those

who must compile records should occur at least once every 3 years -- even if the collection of information activity is the same as in prior periods. There may be circumstances that may preclude consultation in a specific situation. These circumstances should be explained.

9. Explain any decision to provide any payment or gift to respondents, other than remuneration of contractors or grantees.

"RESPONSE"

10. Describe any assurance of confidentiality provided to respondents and the basis for the assurance in statute, regulation, or agency policy.

"RESPONSE"

11. Provide additional justification for any questions of a sensitive nature, such as sexual behavior and attitudes, religious beliefs, and other matters that are commonly considered private. This justification should include the reasons why the agency considers the questions necessary, the specific uses to be made of the information, the explanation to be given to person's form whom the information is requested, and any steps to be taken to obtain their consent.

"RESPONSE"

12. Provide estimates of the hour burden of the collection of information. The statement should:

- Indicate the number of respondents, frequency of response, annual hour burden, and an explanation of how the burden was estimated. Unless directed to do so, agencies should not conduct special surveys to obtain information on which to base hour burden estimates. Consultation with a sample (fewer than 10) of potential respondents is desirable. If the hour burden on respondents is expected to vary widely because of differences in activity, size, or complexity, show the range of estimated hour burden, and explain the reasons for the variance. Generally, estimates should not include burden hours for customary and usual business practices.
- If this request for approval covers more than one form, provide separate hour burden estimates for each form and aggregate the hour burdens in Item 13 of OMB Form 83-I.
- Provide estimates of annualized cost to respondents for the hour burdens for collections of information, identifying and using appropriate wage rate categories. The cost of contracting out or paying outside parties for information collection activities should not be included here. Instead, this cost should be included in Item 14

Type of Respondent	Form Name / Form Number	No. of Respondents	No. of Responses per Respondent	Avg. Burden per Response (in hours)	Total Annual Burden (in hours)	Avg. Hourly Wage Rate	Total Annual Respondent Cost
Total							

13. Provide an estimate of the total annual cost burden to respondents or record keepers resulting from the collection of information. (Do not include the cost of any hour burden shown in Items 12 and 14).

- The cost estimate should be split into two components: (a) a total capital and start-up cost component (annualized over its expected useful life); and (b) a total operation and maintenance and purchase of services component. The estimates should take into account costs associated with generating, maintaining, and disclosing or providing the information. Include descriptions of methods used to estimate major cost factors including system and technology acquisition, expected useful life of capital equipment, the discount rate(s), and the time period over which costs will be incurred. Capital and start-up costs include, among other items, preparations for collecting information such as purchasing computers and software; monitoring, sampling, drilling and testing equipment; and record storage facilities.
- If cost estimates are expected to vary widely, agencies should present ranges of cost burdens and explain the reasons for the variance. The cost of purchasing or contracting out information collection services should be a part of this cost burden estimate. In developing cost burden estimates, agencies may consult with a sample of respondents (fewer than 10), utilize the 60-day pre-OMB submission public comment process and use existing economic or regulatory impact analysis associated with the rulemaking containing the information collection, as appropriate.
- Generally, estimates should not include purchases of equipment or services, or portions thereof, made: (1) prior to October 1, 1995, (2) to achieve regulatory compliance with requirements not associated with the information collection, (3) for reasons other than to provide information or keep records for the government or (4) as part of customary and usual business or private practices.

"RESPONSE"

14. Provide estimates of annualized cost to the Federal government. Also, provide a description

of the method used to estimate cost, which should include quantification of hours, operational expenses (such as equipment, overhead, printing, and support staff), and any other expense that would not have been incurred without this collection of information. Agencies also may aggregate cost estimates from Items 12, 13, and 14 in a single table.

"RESPONSE"

15. Explain the reasons for any program changes or adjustments reporting in Items 13 or 14 of the OMB Form 83-I.

"RESPONSE"

16. For collections of information whose results will be published, outline plans for tabulation, and publication. Address any complex analytical techniques that will be used. Provide the time schedule for the entire project, including beginning and ending dates of the collection of information, completion of report, publication dates, and other actions.

"RESPONSE"

17. If seeking approval to not display the expiration date for OMB approval of the information collection, explain the reasons that display would be inappropriate.

"RESPONSE"

18. Explain each exception to the certification statement identified in Item 19, "Certification for Paperwork Reduction Act Submission," of OMB 83-I.
