HEALTH SERVICE ALLOWANCE LIST, ASHORE

COMDTINST M6700.5C

COMDTINST M6700.5C

OCT 23 2001

COMMANDANT INSTRUCTION M6700.5C

Subj: HEALTH SERVICES ALLOWANCE LIST, ASHORE

Ref: (a) Enlisted Qualifications Manual, COMDTINST M1414.8 (series), Tab 14
(b) COMDT Coast Guard Washington DC (G-WKH) 021426Z APR 01 NOTAL

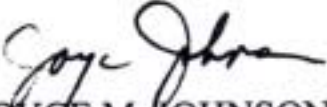

1. **PURPOSE.** This Manual provides class 1 units with basic required stock levels of health care materials. It is herewith re-promulgated because of numerous formatting and content changes. Intended users of this directive are all Coast Guard units that maintain Health Services Allowance Lists, Ashore.
2. **ACTION.** Area and district commanders, commanders of maintenance and logistics commands, commanding officers of headquarters units, assistant commandants for directorates, Chief Counsel and special staff offices at Headquarters shall ensure that personnel procuring health services material carefully follow the instructions contained herein.
3. **DIRECTIVES AFFECTED.** Health Services Allowance List, Ashore, COMDTINST M6700.5B is hereby cancelled.
4. **SUMMARY.** Reference (a) has been changed making revision to the Health Service Allowance List necessary. Pen-and-ink changes published in reference (b) have been incorporated and minor changes have been made to unit requirements to better reflect actual unit need. Significant changes to content are summarized below.
 - a. Section 1-A-1 clarifies funding responsibility for health care and non health care items;
 - b. Section 2-A-7 updated to reflect pen and ink change promulgated by reference (b);
 - c. Section 2-C-1 updated to reflect pen and ink change promulgated by reference (b);
 - d. Section 2-E added to reflect pen and ink change promulgated by reference (b);
 - e. Section 3-A-1 removes all commercially procured texts and adds commercially procured texts required by reference (a).
 - f. Section 3-B-1 updated to reflect pen and ink change promulgated by reference (b), Additionally, the requirement to maintain Cold Injury, NAVMED P-5052-29, Chapter 29 and Poisons, Overdoses, And Antidotes NAVMED P-5095 is deleted;

NON-STANDARD DISTRIBUTION: B:c* MLCs (6 extra), C:v Loran Station Attu (1), C:v Loran Station St. Paul Island (1). C:v Loran Station Port Clarence (1)

- g. Section 5-B-1 added requirement of minimum quantities of antibiotics to support Coast Guard operations;
 - h. Section 7-A updated to reflect pen and ink change promulgated by reference (b).
5. **CHANGES.** All changes to this manual will be promulgated by consecutively numbered changes. Additions, deletions, and other changes will be published as Commandant Notices.
6. **DISTRIBUTION.** No paper distribution will be made of this Manual. Official distribution will be via the Coast Guard Directives System CD-ROM and the Department of Transportation Website <http://isddc.dot.gov/>. An electronic version will also be made available via the Commandant (G-WK) Publications and Directives website.
7. **FORMS AVAILABILITY.** Ordering information for the form listed in this manual, DD form 1191 (Edition Date 19561001), Warning Tag For Medical Oxygen is: Stock Number 0102-LF-011-8000, Unit of Description: TAG, Unit of Issue: PG, Stock Point: Navy.

CHAPTER 1. HEALTH SERVICES ALLOWANCE LIST INSTRUCTIONS

A. General Instructions.

1. The instructions contained in this manual apply to all Class 1 shore units with health services personnel assigned. Funding for health care materials listed in this manual is the Maintenance & Logistics Commands (MLC's) responsibility. Funding of non health care materials such as text books is normally from AFC 30 and is considered a unit responsibility.
2. This manual contains a listing of health care materials (books, publications, consumable supplies, equipment, sets and kits) required for shore units.
3. Class 1A and 1B units are required to maintain sufficient inventory as to support the pharmaceutical & medical surgical requirement of units under their Area of Responsibility (AOR).
4. Units shall maintain the minimum required quantities listed in this manual. This is only a list of MINIMUM required items; it can and should be augmented by other items of supply and equipment to meet unit specific needs.
5. Class 1A, 1B and 1C units shall make available items from the Department of Defense (DOD) Basic Core Formulary (BCF) utilizing prime vendor. Contact the appropriate MLC Pharmacy Officer for questions regarding the BCF.
6. Class 1A, 1B and 1C unit's support and operational requirements vary. Clinics shall maintain sufficient supplies to meet the needs of its daily operations.
7. Class 1D units shall maintain the current Health Services Technicians Formulary. Deviation from the HS formulary shall be requested through the assigned Designated Medical Officer Advisor (DMOA) and approved by the cognizant MLC.
8. Class 1E units shall maintain the current Health Services (HS) formulary in addition to antibiotics, analgesics and controlled substances required by Medical or Dental Officers to perform their duties.
9. Complete requisitioning instructions for the items contained herein are included in Medical Prime Vendor Program Implementation within the Coast Guard, COMDTINST M6740.2 (series).
10. Recommendations for additions, deletions, or other changes to the Health Services Allowance List, Ashore, COMDTINST M6700.5 (series) shall be submitted to the appropriate MLC (k).
11. Units shall maintain an inventory system of medications and equipment using a card file, Clinic Automated Management System (CLAMS), Shipboard Automated Management System (SAMS), or other authorized inventory management program. Inventory and materials management is critical to the prudent use and rotation of date sensitive medications as well as use of medical equipment.

B. Explanation of Class 1 Unit Categories.

1. All primary care facilities ashore with health services personnel assigned are designated Class I as follows:
 - 1A Primary care facilities with medical officer(s) and inpatient capabilities.
 - 1B Primary care facilities with medical officer(s) but no inpatient capabilities.
 - 1C Port Security Units: These units shall maintain equipment and supplies as outlined in the Port Security Unit (PSU) Operational Logistics Support Plan (OLSP).
 - 1D Primary care facilities staffed by Independent Duty Health Services Technicians (IDTs).
 - 1E Primary care facilities with full time dental officer(s) or IDT sickbay with an in-house contract or military medical officer (e.g. Super Sickbay).

CHAPTER 2. INSTRUCTIONS FOR MAINTAINING, ISSUING AND INVENTORYING SUPPLIES AND EQUIPMENT

A. General.

1. All primary care facilities are required to maintain the quantities of minimum required material in accordance with this Manual. In addition, all units shall maintain an operating level of consumable supplies that will allow sufficient lead-time for requisition.
2. In order to maintain the requirements of paragraph 1, an inventory of all consumable supplies and equipment shall be accomplished at least once every three (3) months. During this inventory, a careful inspection must be made for any signs of deterioration, which may render the items harmful, or otherwise unfit, even though the shelf life or potency date has not expired.
3. The necessity for issuing the oldest stocks first cannot be overemphasized. All units shall maintain a “first-in-first-out” dispensing/issuing system for all health care supplies and equipment, unless potency or shelf life periods for the new materials are less than that of the stock on hand.
4. All consumable materials aged beyond the established potency date and shelf life period, as noted in this manual and on the package container, regardless of physical conditions, shall be destroyed by burning or flushing down the drain and in accordance with the provisions of the Medical Manual, COMDTINST M6000.1 (series). In addition, any consumable showing signs of deterioration or suspected of being not fit for health care purposes shall be disposed of in the above manner.
5. Antidote Lockers shall be inspected once a month to ensure an adequate and full inventory. Expired or deteriorated supplies shall be destroyed and replaced.
6. Bandages, battle dressings, and other medical supplies of this nature, having aged beyond the self-life period, may be used for training aids or other non-medical uses.
7. Units shall maintain all messages related to medical product recalls or quality assurance problems for three years from the date of issue. Each message shall be initialed by the health care personnel and a note made as to any remedial action required by the message.

B. Resuscitators and Oxygen Equipment.

1. Hand Operated Resuscitator
 - a. One hand-operated resuscitator shall be maintained within all primary care facilities complete with attachments for oxygen and with the capacity of providing sufficient oxygen for 8 hours (Class 1A), 6 hours (Class 1B), or 4 hours (Class 1C, 1D, and 1E).
 - b. All resuscitators shall be inspected and tested weekly and the results of the inspection recorded in the medical log.

2. Oxygen Handling Procedures

- a. Oxygen cylinders shall be mounted in permanent storage racks in an upright position. Empty cylinders shall not be stowed in the same storage racks as full cylinders. Cylinders stored in storage racks will be filled to capacity and ready for immediate use. All cylinders shall be properly tagged with “WARNING TAG FOR MEDICAL OXYGEN” (DD-1191).
- b. Great care must be exercised in handling oxygen to prevent contact with oil, grease, rubber, organic lubricants, or other materials of an organic nature.
- c. Hydrostatically test oxygen cylinders at least once every five years.
- d. Never drape an oxygen cylinder with any materials such as hospital gowns, masks, or caps.
- e. Never use oxygen fittings, valves, regulators, or gauges for any service other than that oxygen.
- f. Defective oxygen equipment shall always be repaired or replaced by authorized agents or manufacturers.

C. Poison Antidote Lockers.

- 1. A properly marked poison antidote locker shall be located outside the sickbay (or the pharmacy of larger units) and shall be sealed in such a manner to ensure that tampering has not occurred.
 - a. All Class I health care facilities are required to maintain one (1) poison antidote locker in a functional place within the facility (e.g. urgent care room).
 - b. In addition to posting the local poison control telephone number both inside and outside of the container, the locker shall contain minimum quantities of the following items:

NOMENCLATURE	U/I	QTY
CHARCOAL 50 GM IN WATER, 240 ML	BT	2
IPECAC SYRUP, USP, 7%, 30 ML	BT	6
PAPER CUPS, (4 OZ OR LARGER)	EA	4
POCKET MASK	EA	1

- c. In addition to these items, the following two publications shall be maintained in each Poison Antidote Locker:

NOMENCLATURE	U/I	QTY
POISONS, OVERDOSE, AND ANTIDOTES U.S. Navy Publications Center	EA	1
HANDBOOK OF POISONINGS, DIAGNOSIS AND TREATMENT (LOCAL PURCHASE)	EA	1

D. Medevac Rescue Litter.

1. Each facility shall maintain a full allowance of Medevac Rescue Litter (MRL) for transportation of the sick and injured. Allowance standards are listed in chapter 8 of this manual.

E. Thomas Aeromedical Pack TT-890.

1. Each facility shall maintain a Thomas TT-890 Aeromedical Kit as described below. The kit may be used in lieu of, or in addition to, the USCG EMT Rescue pack.

Thomas Aeromedical Pack TT-890
(Commercial Purchase)

The following are the components of the Thomas TT-890 Aeromedical Kit.

Item	U/I	QTY
THOMAS TT-890 PACK (Matrix Medical Inc.)	EA	01

AIRWAY, PHARYNGEAL, RUBBER, INFANT	EA				2	2
AIRWAY, PHARYNGEAL, RUBBER, LARGE ADULT	EA				6	6
AIRWAY, PHARYNGEAL, RUBBER, SMALL ADULT	EA				6	6
APPLICATOR, DISPOSABLE, WOOD OR PLASTIC, COTTON TIP END, 1/12 X 6 IN, 100s	PG				4	4
BOTTLE, EYE, IRRIGATING ZIEGLER, 8 OZ.	EA				1	1
DEPRESSOR, TONGUE, WOOD, STRAIGHT, 5 ¾ X 11/16 IN 100s	BX				4	4
FORCEPS, SPLINTER, 3 ½ IN, DISPOSABLE, (TWEEZERS)	EA				2	2
GLOVES, SURGEON'S, LATEX, STERILE, DISPOSABLE (APPROPRIATE SIZE)	PR				2	2
GLOVES, SURGEON'S, NON-LATEX, STERILE, DISPOSABLE (APPROPRIATE SIZE)	PR				2	2
HAMMER, REFLEX TESTING, 8 IN (TAYLOR)	EA				1	1
SAW, FINGER RING, WITH BLADE	EA				1	1

Continued from 7 A.

DESCRIPTION	U/I	A	B	C	D	E
SCISSORS, BANDAGE, 7 ¼ IN, ANGULAR (LISTER)	EA				2	2
SHIELD, EYE, SURG, SINGLE, PLASTIC	EA				6	6
SPLINT, LEG, HARE	EA				1	1
SPLINT, SAM	EA				4	4
STETHOSCOPE, COMBINATION TYPE	EA				1	1
SYRINGE, IRRIGATING, EAR, DISPOSABLE, PLUNGER TYPE	EA				1	1
TOURNIQUET, NONPNEUMATIC	EA				2	2
SYRINGE, HYPO, DISPOSABLE STERILE, 3 ML, 100s	PG				1	1
GLOVES, PATIENT EXAMINATION AND TREATMENT, PLASTIC, DISPOSABLE, MEDIUM, 50s	BX				1	1
OTOSCOPE AND OPHTHALMOSCOPE SET, ELECTRONIC	SE				1	1
RAZOR, SURG PREP, STRAIGHT TYPE, LARGE (DISPOSABLE)	EA				2	2
BLADE, SURG PREP RAZOR, STRAIGHT, SINGLE EDGE, 5s (DISPOSABLE)	PG				2	2
NEEDLE, HYPO, STERILE, GENERAL PURPOSE, DISPOSABLE, ½ IN 26 GAUGE, 100s	BX				2	2
SPHYGMOMANOMETER	EA				1	1
CANE, WALKING, WITH TIP	EA				1	1
CRUTCH, ADJUSTABLE, WOOD WITH AUXILLIARY PADS AND TIP	EA				1	1
TUBE, DRAIN, SURGICAL, STERILE, X-RAY OPAQUE, RUBBER, 7/8 IN X 12 IN LONG, 12s (PENROSE)	BX				1	1
SYRINGE, CARTRIDGE SLIDE, LOADING USE WITH 1, 2, AND 2 ½ ML INSERT CARTRIDGE, NEEDLE INJECTION UNITS	EA				1	1
FINGER COT, SURG, DISPOSABLE, LARGE, 144s	PG				1	1
SPLINT, ARM, PNEUMATIC, ADULT, ZIPPER CLOSURE	EA				2	2
SPLINT, LEG, PNEUMATIC, ADULT, ZIPPER CLOSURE	EA				2	2

Continued from 7 A.

DESCRIPTION	U/I	A	B	C	D	E
SCISSORS, BANDAGE, ANGULAR, ROUND TIP, 1 IN PROBE, FIELD TYPE, 7 ¼ IN, (FOR CUTTING HEAVY OR MULTIPLE LAYERS OF CLOTH)	EA				2	2
SUTURE, STERILE, NON-ABSORBABLE, SURGICAL, CUTICULAR, NYLON, SINGLE-ARMED, 3/8 CIRCLE, 11/16 IN REVERSE CUTTING EDGE NEEDLE, SZ 5-0, 12s	PG				1	1
CHART SET, VISION, CLINICAL	EA				1	1
SUTURE, STERILE, NON-ABSORBABLE, SURGICAL, CUTICULAR, SILK, SINGLE-ARMED, 7/8 HALF CURVED, REVERSE CUTTING EDGE NEEDLE, SZ 4-0, 12s	PG				1	1
SYRINGE & NEEDLE, HYPO, DISPOSABLE, TUBERCULIN, 1 CC, 5/8 IN NEEDLE, 25 GAUGE 100s	PG				1	1
MASK, SURGICAL, NON-STERILE NON-WOVEN FABRIC, CUPPED, GREEN, DISPOSABLE, 50s	PG				1	1
INCUBATOR, BACTERIOLOGICAL 110V, 60CYC, AC, DIM 10 ¼ X 6 X 11 ½ IN (MAY BE USED TO INCUBATE ENDOBROTH MEMBRANE FILTER DISKS FOR POTABLE WATER CONTAMINATION ANALYSIS)	EA				1	1
CENTRIFUGE, LAB, SML, 110V, 60 CYC, 75 W, PORTABLE (ACCOMODATES 10X 75 MM OR 12 X 75 MM KAHN TUBES)	EA				1	1
WATER TESTING KIT, BACTERIOLOGICAL (COLIALERT)	EA				1	1
SCALES, PERSON, WEIGHT, 250 LB CAPACITY	EA				1	1

CHAPTER 8. FURNITURE, EQUIPMENT, UTENSILS AND SUPPLIES

A. Minimum Requirements For Hospital Furniture, Equipment, Utensils And Supplies.

1. The following are the minimum requirements for hospital furniture, equipment, utensils and supplies, which shall be maintained.

DESCRIPTION	U/I	A	B	C	D	E
LIGHT, SURGICAL, FLOORSTAND	EA				1	1
BOWL, SURGICAL, SPONGE DISPOSABLE , 6 5/16 X 3 IN	EA				2	2
DISPENSER, SURGICAL DETERGENT, FOOT OPERATED	EA				1	1
TABLE, SURGICAL INSTRUMENT AND DRESSING, MAYO STAND, CRS, 33 X 18 X 32 IN, RIGID TYPE WITH CASTERS	EA				1	1
BAG, HOT WATER-ICE, STOPPERLESS, 2 QT	EA				1	1
BASIN, EMESIS, CRS	EA				1	1
BASIN, WASH, CRS, 9 QT	EA				1	1
BEDPAN, CRS	EA				1	1
BRUSH, SURGICAL SCRUB, NYLON	EA				6	6
MEDEVAC RESCUE (SAR) LITTER	EA				1	1
URINAL, MALE PATIENT, CRS, 2 QT (DISPOSABLE)	EA				1	1
EVACUATION BAG, BODY BAG	EA				1	1

CHAPTER 9. ITEMS OF MEDICAL MATERIAL ONLY

A. Minimum Requirements For Medical Material Items.

1. The following are the minimum requirements for medical material items (chemicals, training devices, household materials, office supplies, printed matter, etc.), which shall be maintained.

DESCRIPTION	U/I	A	B	C	D	E
GOWN, OP, SURG, DISPOSABLE, (APPROPRIATE SIZES)	EA				2	2
INSECT REPELLENT, CLOTHING AND SKIN, DIETHYLTOLUAMIDE, 2 OZ PLASTIC BOTTLES, 48 BOTTLES TO A BOX	BX				1	1
PILLOW, BED, POLYESTER FIBER, NONALLERGENIC, 20 X 26 IN	EA				2	2
PILLOWCASE, COTTON-POLYESTER	EA				4	4
BLANKET, BED, SYNTHETIC, THERMAL, WEAVE, GREEN	EA				6	6
WASTE RECEPTACLE, STEP-ON, 3 GAL, CRS	EA				1	1
WHITE PRESCRIPTION LABELS, PRESSURE SENSITIVE, 2 ½ X 1 ½ IN ROUNDED CORNERS, 3,000 LABELS PER ROLL, WILL ADHERE TO PAPER, GLASS, PLASTIC OR METAL	RO				1	1
LABEL, "CAUTION FEDERAL LAW PROHIBITS THE TRANSFER OF THIS DRUG TO ANY PERSON OTHER THAN THE PATIENT FOR WHOM IT WAS PRESCRIBED", PRESSURE SENSITIVE, 3/8 IN X 1 ½ IN, 1000s	RO				1	1
