# FY 18 TOP DoD MANAGEMENT CHALLENGES

Each year, by law, the Inspector General (IG) prepares an annual statement that summarizes what the IG considers to be the most serious management and performance challenges facing the agency. This forward-looking document outlines the most significant management and performance challenges facing the DoD now and in the future. For FY 2018 the DoD OIG identified the 10 Management Challenges listed below. These 10 Management Challenges are not necessarily placed in order of importance; rather, they are all critical and difficult management and performance challenges facing the DoD.

In the DoD OIG FY 2018 Oversight Plan, we detail the oversight projects we intend to initiate that relate to each of the Top Management Challenges. The DoD FY 2018 Oversight Plan, is available at:
