## **My Social Security:** *Data extracted from ssa.gov*

The Social Security Administration (SSA) recommends that all beneficiaries open a My Social Security account. The SSA provides this program that allows you to rest easy knowing that you're in control of your future.

- So what does this program do for you? Well, if you are not yet receiving Social Security benefits, My Social Security allows you to:
- Request a replacement Social Security Card if you meet certain requirements
- Check the status of an application or appeal

- Get your Social Security Statement, to review:
  - Estimates of your future retirement, disability and survivors benefits;
  - Your earnings once a year to verify the amounts that we posted are correct
  - The Estimated Social Security and Medicare taxes you paid.
- Get a benefit verification letter stating that:
  - You never received Social Security benefits, Supplemental Security Income or Medicare
  - You received benefits in the past, but do not currently receive them. (The letter will include the date your benefits stopped and how much you received that year.
  - You applied for benefits but haven't received an answer yet.

If you receive benefits or have Medicare, you can:

- Request a replacement Social Security card if you meet certain criteria
- Report your wages if you work and receive Disability Insurance benefits
- Get your benefit verification letter
- Check your benefit and payment information and your earnings record
- Change your address and phone number
- Start or change direct deposit of your benefit payment
- Request a replacement Medicare card
- Get a replacement SSA-1099 or SSA-1042S for tax season.

To create a My Social Security account, go to <https://www.ssa.gov/myaccount/> and click the Create an Account banner. First, you must provide some personal information about yourself. You also must give them answers to some questions the only you are likely to know the answers to. Next, you create a username and password that you will use to access your online account. Then you will select how you would like to receive a one-time security code by providing the email address you already registered or a text-enabled cell phone. They will send you this security code which you have to enter into the account creation web page within 10 minutes of receiving it. This protects you and keeps your personal Social Security information private.

Social Security maintains a robust cyber-security system, but you are the most important factor in helping us keep your personal information safe.

You can read “How you Can Help Us Protect Your Social Security Number and Keep Your Information Safe” at <https://www.ssa.gov/pubs/EN-05-10220.pdf>.

If you have a security freeze, fraud alert or both on your credit report, you can still open a My Social Security account in person by visiting your local Social Security Office. You can also temporarily lift your security freeze or fraud alert to create your account online and then reinstate it as needed.

You can only create a My Social Security account using your own personal information and for your own exclusive use. You can not create or use an account on behalf of another person. You can never share the use of your account with anyone else under any circumstances. Unauthorized use of this service is a misrepresentation of your identity to the federal government and could subject you to criminal or civil penalties, or both.

## **171ARW Financial Counselor – “Financial Updates”:**

### STARTING YOUR NEW YEAR OFF RIGHT

The New Year is an opportune time to review your finances, establish goals and make positive changes to improve your current financial situation. Minor changes made during the course of the year end up to be major accomplishments which will positively impact your financial security for a lifetime. Following are suggestions for you to consider.

- \* The interest rate on savings accounts have substantially increased. There are several FDIC financial institutions which are paying over 2%. Just google, high interest rate on savings account and a list of financial organizations should populate. Your account should be FDIC insured with no withdrawal penalties.
- \* Check your budget to determine if there are any expenses that can be minimized.
- \* Review your credit card debt, auto loans and personal loans to determine the outstanding balance and the interest rate you are being charged. Commit to only charging if it is a financial emergency and make additional payments when able. To structure your payments to pay off your debt sooner, use the website, [powerpay.org](http://powerpay.org).
- \* Determine a reasonable amount you would like to save this year and make the necessary deposit every pay. Ex. Savings goal: \$5,000 and if paid bi-monthly, \$192 should be deposited into your account. The best method to save money is to have the money automatically withdrawn from your checking account.
- \* Review your investment accounts to determine if any changes should be made to better meet your objectives and risk tolerance. Seek professional advice prior to making any changes due to the volatility of the market.
- \* Review all your legal documents to make certain no changes have to be made. Call JAG to make an appointment at 412-776-7529.

Contact your financial counselor today for a complete review of your finances.
