He got the job around the 30th

it was his second choice because he said they were tweaked out. He was worried about the first trip out because Steve hadn't check the ~~water~~^{tide} lift on the first⁽¹⁾ and the boat got stuck on the sand in front of Embarcadero,

When he came home that day/night he said to me "that guy is going to hurt someone"

(2nd trip) out to pick up pots. Josh was upset cause "Steve wouldn't leave until he pick up some beer," Josh said Steve didn't know how to use the deep-finder or even track the pots.
