Dear Meeth:-

I am enclosing copy of report of visit of H. M. S. "Calcutta". I request that you take a look at paragraph 12 and see if you can make anything out of it. Early return of this paper with your report is desirable.

Encl.

Very sincerely yours,

Transmooran

Dear Major Moorman:

The message in Paragraph 12 of the enclosed report is probably encoded in the British Naval Code, on which we have very little material. In fact we have so very few five-letter British messages that we have been unable to make anything out of them. Most of the material we get is in diplomatic figure codes. However, we are keeping a copy of the message in question and if, at some future date, we are able to read it we shall send you the translation.

Very sincerely yours,

John C. Meeth
