Dear Colonel Locke:

As we telephoned Moorman yesterday, the material was not mailed night before last as Hurley was here and said he would take it the next day. Day before yesterday's material and yesterday's material were made up in one envelope for which Hurley was to call yesterday. He telephoned at midnight and said he would be here in 15 minutes but nothing has been heard of him since. I am therefore sending the package by registered mail.

Very sincerely yours,
