

March 11, 1926. S

Dear Yardley:

Was sent for yesterday by L.H., who was extremely anxious about M. Says this is paramount now and urges that nothing interfere with work of all on this subject. Went to T and immediate results are five messages under separate cover. Have another conference today and hope to get something incoming and also plain text.

Please consider this of extreme urgency and forget J and others at present. Shoot forward even partially worked out messages. Please keep me informed and forward any suggestions that might be of aid. We feel that if you can get into this stuff at an early date that all questions of appropriations are safe for some time to come.

Write acknowledgement of this and those under separate cover as soon as received.

With best wishes,

C.M.M.
