SUBJECT: Guidance for Continuation of Operations During a Lapse of Appropriations

Appropriations provided under the DoD Appropriations Act, 2019 (division A of Public Law 115-245) expire at 11:59 PM Eastern Standard Time on Monday, September 30, 2019. The Administration does not want a lapse in appropriations, which would result in a Federal government shutdown, to occur. The Secretary and I hope that the Congress will quickly pass the annual appropriations bill for Defense activities prior to FY 2020. However, prudent management requires that the Department be prepared for the possibility of a lapse in appropriations.

The attachment to this memorandum provides instructions for continuation of essential operations in the absence of appropriated funds. The Department will, of course, continue to prosecute the war in Afghanistan and ongoing operations against al-Qaeda and the Islamic State of Iraq and Syria, including preparation of forces for deployment into those conflicts. The Department must, as well, continue many other operations necessary for the safety of human life or the protection of property (a copy of military operations necessary for national security will be supplied separately). These activities will be "excepted" from the effects of a lapse in appropriations: all other activities would need to be shut down in an orderly and deliberate fashion, including – with few exceptions – the cessation of temporary duty travel.

All military personnel performing active duty will continue in a normal duty status regardless of their affiliation with excepted or non-excepted activities. Military personnel will

OSD008393-19/CMD010248-19

not be paid until such time as Congress makes appropriated funds available to compensate them for this period of service. Civilian personnel who are necessary to carry out or support excepted activities will continue in normal duty status and also will not be paid until Congress makes appropriated funds available. Civilian employees paid from lapsed appropriations and who are not necessary to carry out or support excepted activities will be furloughed, i.e., placed in a non-work, non-pay status.

The responsibility for determining which activities meet the criteria for being excepted from shutdown resides with the Secretaries of the Military Departments and Heads of the DoD Components, including the combatant commanders with respect to activities undertaken by their immediate headquarters and subordinate joint headquarters, who may delegate this authority as they deem appropriate. Notwithstanding the foregoing, the Assistant Secretary of Defense for Special Operations/Low Intensity Conflict has the responsibility for determining which activities wholly funded by Major Force Program-11 are excepted from shutdown. The attached guidance should be used to assist in making this determination. The guidance does not identify every excepted activity, but rather provides overarching direction and general principles for making these determinations. It should be applied prudently in the context of a Department at war, with decisions guaranteeing our continued robust support for those engaged in that war, and providing assurance that the lives and property of our Nation's citizens will be protected.

This memorandum contains guidance to begin detailed planning. No shutdown actions are to be taken until you receive further notice.

Within the Office of the Secretary of Defense, the Under Secretary of Defense (Comptroller) will take the lead in preparing for operations in the absence of appropriations, assisted by other offices as necessary.

To repeat, the Secretary and I hope that Congress will pass a funding bill and the DoD will avoid a shutdown. This guidance is intended to support prudent planning.

GENERAL INFORMATION

This document provides guidance for identifying those missions and functions of the Department of Defense (DoD) that may continue to be carried out in the absence of available appropriations. The information provided in this document is not exhaustive, but rather illustrative, and is intended primarily to assist in the identification of those activities that may be continued notwithstanding the absence of available funding authority in the applicable appropriations (excepted activities). Activities that are determined not to be excepted, and which cannot be

**For Planning Purposes Only - Do Not Implement Until Direction from the
Deputy Secretary of Defense or his Designee**

performed by utilizing military personnel in place of furloughed civilian personnel, will be suspended when appropriated funds expire. The Secretary of Defense may, at any time, determine that additional activities shall be treated as excepted.

Components should consult the Office of Management and Budget website (<http://www.whitehouse.gov/omb/>) and section 124 of OMB Circular A-11 (Preparation, Submission and Execution of the Budget) for the latest guidance issued on operations during a lapse in appropriation and the Office of Personnel Management website (<http://www.opm.gov/policy-data-oversight/pay-leave/furlough-guidance/#url=Overview>) for the latest guidance on civilian furloughs during a government shutdown.

Antideficiency Act Compliance

The Antideficiency Act prohibits Federal agencies from incurring obligations that are in advance of, or that exceed, an appropriation. Thus, with certain limited exceptions, a Federal agency may not incur obligations when the funding source for the obligation is an appropriation that has lapsed (i.e., no longer available for new obligations). Also prohibited is the acceptance of voluntary services. Federal agencies may not accept services from employees, whose salaries are set by law without the obligation of appropriations for their compensation, except for emergencies involving the safety of human life or the protection of property.

After operating appropriations have lapsed for new obligations, the Department may incur costs in advance of an appropriation *only* for those activities that have been designated as “excepted.” Such excepted situations include: (1) statutes that expressly authorize incurring obligations in advance of appropriations, (2) emergencies involving the safety of human life or the protection of property, and (3) functions necessary to discharge the President’s constitutional duties. No disbursements may be made to liquidate obligations incurred for excepted activities *until* Congress provides an appropriation to cover these obligations. No obligations may be made to support a non-excepted activity during a lapse in appropriations, as that is a violation of the Antideficiency Act.

New obligations may be charged to appropriation accounts or funds that do not expire for new obligation on September 30th to the extent sufficient unobligated balances exist. For DoD, after operating appropriations lapse, unobligated balances exist in accounts for procurement; research, development, test and evaluation; military construction; working capital funds; and other revolving and management funds.

Where funds were obligated in a prior fiscal year or are obligated during the lapse from an unexpired account, such funds may be disbursed if funds are available for continued program administration and program payment processing, or if the administration and payment activities for the programs themselves are excepted as necessary by implication. *Thus no costs may be incurred in a lapsed appropriation account/fund to support the activities funded with unobligated balances unless these activities are supporting designated “excepted” activities.*

**For Planning Purposes Only - Do Not Implement Until Direction from the
Deputy Secretary of Defense or his Designee**

Military Personnel

Military personnel on active duty, including reserve component personnel on Federal active duty, will continue to report for duty and carry out assigned duties. This includes duty involving excepted and, to the extent they can be performed without incurring new obligations, non-excepted activities. Military personnel on active duty may be assigned to carry out non-excepted activities in place of furloughed civilian personnel only to the extent that the non-excepted activity is capable of performance without incurring new obligations. As is always the case, military personnel may not exercise the functions of a Presidentially-appointed, Senate-confirmed official. See 10 U.S.C. section 973(b).

Reserve component personnel performing Active Guard Reserve (AGR) duty will continue to report for duty to carry out AGR authorized duties for the period of their AGR tour. Reserve component personnel will not perform inactive duty resulting in the obligation of funds, except where such duty directly supports an excepted activity, and may not be ordered to or extended on active duty, including AGR duty, except in support of military operations and activities necessary for national security or disaster response, including fulfilling associated pre-deployment requirements. The list of military operations and activities necessary for national security will be provided separately. Orders for members of the National Guard currently performing duties under 32 U.S.C. 502(f) (other than AGRs) will be terminated unless such duties are in support of excepted activities.

Movement of military personnel associated with permanent change of station will be limited as follows:

- 1) Moves TO an excepted activity will continue.
- 2) Moves FROM an excepted activity will continue only to the extent the commander of the excepted activity determines it essential to mission (e.g., overburden of local infrastructure), or required to enhance support of excepted activities.
- 3) Accession and training moves associated with recruitment and initial entry training will continue, along with subsequent movement to first station when required by "1" above.
- 4) Movement to comply with separation instructions will continue *only* if the funds were obligated prior to the appropriations lapse; no costs may be incurred unless it is already funded in the Permanent Change of Station order.

Civilian Personnel

Civilian personnel, including military technicians, who are not necessary to carry out or support excepted activities, are to be furloughed using lapse in appropriations (often called emergency shutdown) procedures and guidance provided by the Office of Personnel Management. Only the minimum number of civilian employees necessary to carry out excepted activities will be excepted from furlough. Positions that provide direct support to excepted positions may also be deemed

**For Planning Purposes Only - Do Not Implement Until Direction from the
Deputy Secretary of Defense or his Designee**

excepted if they are critical to performing the excepted activity. Determinations regarding the status of civilian positions will be made on a position by position basis, using the guidance in this document. Determinations shall be made for all positions, including those in the Senior Executive Service or equivalent, as well as those located overseas.

Individuals who are needed to support excepted activities generally should only work on excepted activity work. Once the excepted activity work is completed, the individual should be furloughed using government emergency shutdown procedures. If the excepted activity is to be performed intermittently during the day, management should consolidate excepted activities to the maximum extent possible for performance by the fewest number of employees. Management needs to determine if military personnel vice civilians can provide the needed support to the “excepted” activity.

Following the expiration of appropriations, a minimum number of civilian employees may be retained as needed to execute an orderly suspension of non-excepted activities within a reasonable timeframe. *Reminder: at no time may contractors perform inherently governmental work; this includes during a government shutdown.*

Senate-confirmed officials appointed by the President are not subject to furlough. Their immediate office personnel necessary to support excepted activities may be excepted from furlough at the discretion of the appointee.

Foreign national employees paid with host country funds are not subject to furlough; if the Department reimburses the host nation for foreign national employee labor costs, then they are subject to furlough unless they support an excepted activity. However, foreign national employees governed by country-to-country agreements that prohibit furloughs are exempt from furlough. Foreign national employees may not engage in any activities that incur new obligations, unless in support of an excepted activity. *Reminder: No disbursements may be made to liquidate obligations incurred for foreign nationals until Congress provides an appropriation to cover these obligations (i.e., no pay may be made unless the individuals are paid from appropriation accounts/funds with unobligated, unexpired balances).*

Civilian personnel whose salaries are reimbursed from a non-DoD source (e.g., the Foreign Military Sales Trust Fund) are not exempt from furlough solely on that basis; if the appropriation account into which reimbursements are to be made has lapsed, such employees will be furloughed unless they are working on excepted activities. Personnel whose compensation is paid from a DoD appropriation or fund that has sufficient budgetary authority (e.g., trust funds, gift funds, multiyear appropriations with available balances from prior years) may not be furloughed using the rules for emergency shutdown furloughs as long as there are sufficient balances in the accounts to pay all compensation costs for these civilians. Normal reprogramming rules remain in effect for these multiyear accounts. Prior to exhaustion of such appropriations, civilians funded in multiyear appropriations or funds may be furloughed *only* if the rules for an administrative furlough are applied; prior notification is required unless suspended or shortened based on emergency. *Heads of activities may, on their authority, require the return to work of those furloughed civilian personnel necessary to respond to emerging developments (natural disasters, accidents, etc.) that pose an imminent danger to the safety of human life or the protection of property.*

**For Planning Purposes Only - Do Not Implement Until Direction from the
Deputy Secretary of Defense or his Designee**

Permanent change of station (PCS) for civilian personnel will continue only to the extent expenses are chargeable to a funded PCS order issued prior to the funds lapse. Expenses for movement of civilian personnel chargeable to lapsed appropriations will be limited as follows:

- 1) Moves TO an excepted activity that cannot be delayed will continue.
- 2) Moves FROM an excepted activity will continue only to the extent the commander of the excepted activity determines it essential to mission (e.g., overburden of local infrastructure), or required to enhance support of excepted activities.

Temporary Duty (TDY) Travel and Conference Participation

In the absence of appropriations, TDY travel and conference participation scheduled to begin after the shutdown occurs should be cancelled, except as noted below. Any TDY travel or conference participation that began prior to the shutdown should, except as noted below, be terminated (i.e., return to one's official duty station) as quickly as possible, but in an orderly fashion. This includes TDY travel and conference participation associated with professional military education training.

All TDY travel and participation in conferences in direct support of military operations in Afghanistan, against al-Qaeda, and to counter the Islamic State of Iraq and Syria and other terrorist groups threatening the national security of the United States, including TDY travel of reservists on active duty, may be undertaken or continue. Attendance at such conferences remains subject to applicable conference attendance policies. Other travel/conference participation directly related to safety of human life or the protection of property, including national security, as well as foreign relations (e.g., negotiating international agreements), may be undertaken or continued *only if* approved, in writing, by the appropriate approval authority listed below and only in the most limited circumstances. The approval authority (which may be delegated to appropriate senior officials) for any such TDY travel or conference participation is the:

- Secretary of a Military Department for personnel assigned to that Military Department
- Head of a Defense agency for personnel assigned to that Defense agency
- Chairman of the Joint Chiefs of Staff for personnel assigned to the Joint Staff and the Combatant Commanders
- Combatant Commander for personnel assigned to that combatant command
- Principal Staff Assistant (PSA) for personnel assigned to that office and Heads of Defense agencies reporting to that PSA

Notwithstanding the approval authority stated above, all TDY travel/conference participation by Presidentially Appointed – Senate Confirmed (PAS) personnel and the Chairman of the Joint Chiefs of Staff must be approved by the Deputy Secretary of Defense.

Approving officials will implement a mechanism within their organizations for approving such travel and conference participation.

Contracts

A contractor performing under a contract (or contract option) that was awarded prior to the expiration of appropriations may continue to provide contract services, whether in support of excepted activities or not, up to the limit of the funds obligated on the contract prior to the lapse in appropriations. However, new contracts (including contract renewals or extensions, issuance of task orders, exercise of options) may not be executed, nor may increments of funding be placed on incrementally funded contracts or to cover cost overruns, unless the contractor is supporting an excepted activity. No funds will be available to pay such new contract or place additional increments of funding on contracts until Congress appropriates additional funds.

The expiration of an appropriation does not require the termination of contracts (or issuance of stop work orders) funded by that appropriation unless a new obligation of funds is required under the contract and the contract is not required to support an excepted activity. In cases where additional funding is required and/or oversight, engagement, or inspection by Federal employees who have been furloughed is critical to successful performance under the contract and the contract is not required to support an excepted activity, the issuance of a stop work order or the termination of the contract may be required.

The Department may continue to enter into new contracts, or place task orders under existing contracts, to obtain supplies and services necessary to carry out or support excepted activities even though there are no available appropriations. It is emphasized that this authority is to be exercised *only* when determined to be necessary - where delay in contracting would create an imminent risk to the safety of human life or the protection of property, including endangering national security.

Additionally, when authorized by the Secretary of Defense, contracts for covered items may be entered into under the authority of the Feed and Forage Act.

Operations conducted to make such payments are excepted as a “necessarily implied” activity.
