c. Describe the purpose of this DoD information system or electronic collection and describe the types of personal information about individuals collected in the system.

CAPS-W automates the entitlement process associated with vendor pay operations within the Accounts Payable organizations. Each site processes vendor payments for different customers to include the United States Army, Marine Corps, and Defense Agencies. Accounts Payable organizations ensure entitlements are authorized, processed, validated, certified, and monitored for any errors in processing, both systemically and manually. CAPS-W looks for a three-way match (purchase order/invoice/receiving report) to calculate entitlements. The system also facilitates compliance with the Prompt Payment Act (PPA) to reduce interest penalty payments, discounts lost, and time spent in processing payment. Types of personal information contained within the system include vendor information such as: Social Security Number (SSN)/Tax Identification Number (TIN), address, DoD-ID, and Electronic Funds Transfer (EFT) financial payment information.

d. Why is the PII collected and/or what is the intended use of the PII? (e.g., verification, identification, authentication, data matching, mission-related use, administrative use)

The PII is collected in order to support the vendor payment process.

f. Do individuals have the opportunity to consent to the specific uses of their PII? Yes No

(1) If "Yes," describe the method by which individuals can give or withhold their consent.

(2) If "No," state the reason why individuals cannot give or withhold their consent.
