ASSISTANT SECRETARY OF THE NAVY (ENERGY,  
INSTALLATIONS AND ENVIRONMENT)  
ASSISTANT SECRETARY OF THE AIR FORCE  
(INSTALLATIONS, ENVIRONMENT AND ENERGY)  
DIRECTOR, NATIONAL GUARD BUREAU (JOINT STAFF, J8)  
DIRECTOR, DEFENSE LOGISTICS AGENCY (INSTALLATION  
SUPPORT)

SUBJECT: Reporting of National Pollutant Discharge Elimination System Permits Containing  
Per- and Polyfluoroalkyl Substances Conditions

To effectively track and report National Pollutant Discharge Elimination System (NPDES) permits that include per- and polyfluoroalkyl substances (PFAS) requirements, the Clean Water Act Services Steering Committee (CWA SSC) will report instances of draft and final NPDES permits that include conditions related to PFAS quarterly to the Deputy Assistant Secretary of Defense for Environment (DASD(Environment)).

Using the attached data collection template, the CWA SSC is required to submit the first report by January 30, 2020, to the DASD(Environment), and subsequent reports are due 30 days after the end of each quarter. This memorandum will expire on December 31, 2022, unless renewed prior to that date.

For questions or issues, my point of contact is Mr. Patrick Kelly, at 571-372-6904 or patrick.m.kelly140.ctr@mail.mil.

  
Peter J. Potochney  
Acting
