c. Describe the purpose of this DoD information system or electronic collection and describe the types of personal information about individuals collected in the system.

Consolidated Cash Accountability System (CCAS) is a Fund Balance with Treasury (FBwT) reconciliation system used by Defense Finance and Accounting Service (DFAS) Columbus, Limestone, Japan, and Indianapolis. The system tracks vouchers reported to Treasury until they are posted in accounting systems & provides the basis for audit support of FBwT General Ledgers for the Air Force. CCAS is an internal control system that initiates comparison among various automated information sources using Structured Query Language (SQL) and generates reports allowing accounting staff to research variances between systems. This allows correction of discrepancies between systems and provides a critical internal control. CCAS does not directly change any financial data but is used to trigger research that can lead to adjustments.

CCAS does not collect Personally Identifiable Information (PII) directly from the individual. CCAS receives PII from other existing systems. The PII is required to enable the Air Force and their authorized support personnel to complete root cause analysis on the variances. This may result in adjustments to correct discrepancies in the originating system in order to ensure the accuracy of Financial Statement balances. Types of PII are noted in Section 3a.(1) herein.

d. Why is the PII collected and/or what is the intended use of the PII? (e.g., verification, identification, authentication, data matching, mission-related use, administrative use)

The PII is required to enable the Air Force and their authorized support personnel to complete root cause analysis on variances between systems, which may result in adjustments to correct discrepancies in the originating system in order to ensure the accuracy of Financial Statement balances.

e. Do individuals have the opportunity to object to the collection of their PII? Yes No

(1) If "Yes," describe the method by which individuals can object to the collection of PII.

(2) If "No," state the reason why individuals cannot object to the collection of PII.

CCAS does not collect PII directly from the individual.

f. Do individuals have the opportunity to consent to the specific uses of their PII? Yes No

(1) If "Yes," describe the method by which individuals can give or withhold their consent.

(2) If "No," state the reason why individuals cannot give or withhold their consent.

CCAS does not collect PII directly from the individual.

g. When an individual is asked to provide PII, a Privacy Act Statement (PAS) and/or a Privacy Advisory must be provided. (Check as appropriate and provide the actual wording.)

Other Federal Information Systems

Of the sixteen data sources CCAS receives data from, only two possibly contain PII. The General Accounting and Finance System - Re-engineered (GAFS-R) and Defense Cash Accountability System (DCAS) files contain PII. PII is occasionally found in the document number field on the files.

Two data sources that possibly contain PII are collected by either:

1) Download directly from the data source

2) Download from a shared file location

k. Does this DoD Information system or electronic collection require a Privacy Act System of Records Notice (SORN)?

A Privacy Act SORN is required if the information system or electronic collection contains information about U.S. citizens or lawful permanent U.S. residents that is retrieved by name or other unique identifier. PIA and Privacy Act SORN information must be consistent.

Yes No

If "Yes," enter SORN System Identifier

SORN Identifier, not the Federal Register (FR) Citation. Consult the DoD Component Privacy Office for additional information or <http://dpcl.dod.mil/Privacy/SORNs/>

or

If a SORN has not yet been published in the Federal Register, enter date of submission for approval to Defense Privacy, Civil Liberties, and Transparency Division (DPCLTD). Consult the DoD Component Privacy Office for this date

If "No," explain why the SORN is not required in accordance with DoD Regulation 5400.11-R: Department of Defense Privacy Program.

For PII not collected or maintained in a system of records, the collection or maintenance of the PII must be necessary to discharge the requirements of a statute or Executive Order.

- (1) If this system has a Privacy Act SORN, the authorities in this PIA and the existing Privacy Act SORN should be similar.
- (2) If a SORN does not apply, cite the authority for this DoD information system or electronic collection to collect, use, maintain and/or disseminate PII. (If multiple authorities are cited, provide all that apply).

(a) Cite the specific provisions of the statute and/or EO that authorizes the operation of the system and the collection of PII.

(b) If direct statutory authority or an Executive Order does not exist, indirect statutory authority may be cited if the authority requires the operation or administration of a program, the execution of which will require the collection and maintenance of a system of records.

(c) If direct or indirect authority does not exist, DoD Components can use their general statutory grants of authority ("internal housekeeping") as the primary authority. The requirement, directive, or instruction implementing the statute within the DoD Component must be identified.
