## K-12 ACADEMIC OUTREACH PROGRAMS

Promoting **Science, Technology, Engineering, and Mathematics (STEM)** and **World Language** education at non-profit educational institutions, to cultivate the next generation of experts in fields critical to our nation's future.

NATIONAL  
SECURITY  
AGENCY

## REQUESTING A SPEAKER

The K-12 Academic Outreach Speakers Bureau enables NSA professionals to provide STEM and world language enrichment presentations to schools. The Speakers Bureau offers a variety of fun and fascinating STEM and world language talks aimed primarily at middle and high school students. NSA hopes that the speaker's knowledge of and excitement about these topics will inspire students to be more enthusiastic about their future encounters with STEM and foreign language.

In-person presentations are available in the Baltimore-Washington area and NSA's cryptologic centers in Georgia, Colorado, Texas, and Hawaii. Virtual presentations are available throughout the country.

A list of available presentations, including appropriate grade levels and time requirements, is located on [NSA.gov](https://www.nsa.gov) (or search "NSA K-12 Outreach"). The majority of the presentations are interactive and work best with a smaller group (25–30 students or less).

## OTHER SERVICES

In addition to the Speakers Bureau, K-12 Academic Outreach also offers:

- Judges for STEM fairs, competitions (e.g. robotics, Cyber Patriot, world language)
- Participation in STEM/world language events
- Help with extracurricular activities (clubs, competition teams)

## SUBMIT A REQUEST

All requests must be submitted using the form on the [website](#). If you have any questions, email [K12outreach@nsa.gov](mailto:K12outreach@nsa.gov) or call 301-688-6214.

**ALL K-12 OUTREACH SERVICES ARE OFFERED FREE OF CHARGE**
