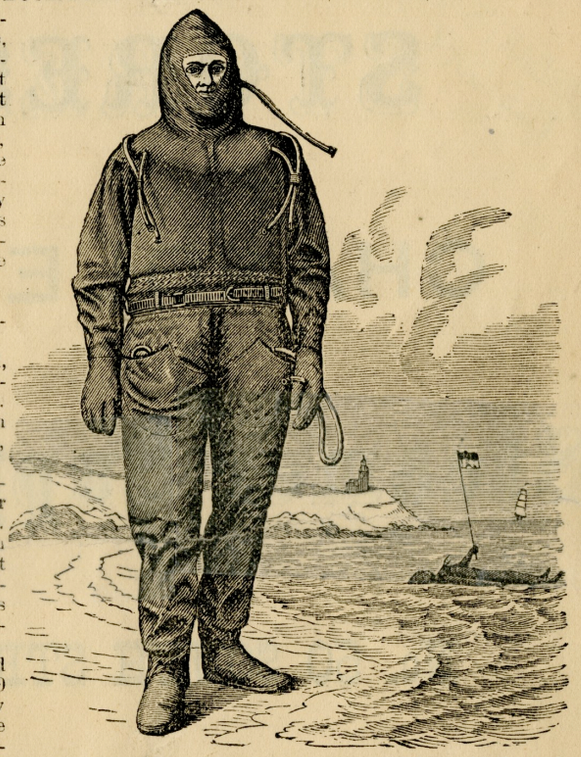
C. S. MERRIMAN'S

PATENT

Water-Proof and Life-Saving Dress,

16 MURRAY STREET, NEW YORK.

F. A. CHURCHILL, 8 MERIDIAN STREET, EAST BOSTON, MASS.
J. & A. W. BURT, 3 & 4 DOCK STREET, LONDON DOCKS, LONDON, ENGLAND.



In introducing this new water-proof Dress to the public, we wish to call attention especially to the fact, that most persons who are drowned first become chilled by coming in contact with the cold water, soon become stiffened, lose the power of action, and, as a result, sink and perish. In very cold water this usually takes place in a space of ten to twenty minutes after going into the water.

For this dress we claim:

First.—It is light and portable.

Second.—It is easily adjusted, only requiring about 2½ minutes to prepare for the water. Any portion of the dress can be inflated by the occupant, even while in the water.

Third.—When properly adjusted, it protects the wearer entirely from the water, and, being filled with air, which comes between the occupant and the water, serves as a non-conductor of heat, and thus preserves the natural temperature of the body.

Fourth.—When fully inflated it has a floating capacity of 400 pounds, and sustains the body in a horizontal position on the surface of the water, thus rendering the position a very easy one, and enabling the occupant to propel himself through the water at a rapid rate, with the use of the hands and arms only, or the wearer can assume an upright position.

SIZES.

Persons of ordinary proportions will require the following sizes:

From 5 feet to 5 feet 5 inches in height.....No. 4
From 5 feet 6 inches to 5 feet 11 inches.....No. 5
From 6 feet to 6 feet 3 inches.....No. 6

More corpulent persons, of same heights, should have the half numbers, as No. 4½, No. 5, No. 5½, No. 6½.

Send for a Circular.
