

HIGH RISK LOCATION ENHANCED SCREENING QUESTIONNAIRE

Symptoms Table

Have you experienced any of the symptoms below in the past 14 days?

Fever >100.4F or feverish (disqualified)	Shortness of breath (disqualified)	Diarrhea	Vomiting
Sore Throat	Cough (disqualifying if associated with Fever and Shortness of Breath)	Runny nose	Nausea
Abdominal pain	Muscle aches	Chills	Headache

Additional questions for the Base Access granting authority to consider:

1. If you had symptoms stated above or those consistent with COVID-19, have you been to a doctor? Did the doctor diagnose you with something other than COVID-19?
2. Have you had any contact with others confirmed with COVID-19 virus in last 14 days?
3. Have you been tested for COVID-19 and received negative results?
4. Have you been in large gathering areas (e.g., shopping center, grocery store, off-base gymnasium, etc.) in the last 14 days?
 - a. What specifically did you do away from home?
 - b. Were these trips limited to minimal duration to only obtain necessary fuel, food, medical and other supplies as allowed by local state directives and/or CDC guidelines?
 - c. Were you able to apply social distancing (6-foot minimum spacing) during the entirety of the visit?
 - d. Did you thoroughly wash or sanitize your hands after the visit?
5. If just traveling through a high risk location in the last 14 days, what was your route of travel and did you stop in those areas? If you stopped over in a high risk location, how long were you there and what did you do?

6. Do you have any other extenuating circumstances in your personal life that may present additional COVID-19 risk factors that could affect you or your family? For example, high risk employee, any underlying medical concerns, employee provides routine care for elderly or other at-risk family members.

7. Do you have any other extenuating circumstances that elevate the risk of exposing other personnel at AEDC to COVID-19? For example, you have routine direct contact with family members who work in elevated risk fields such as medical, first responder, emergency, etc.
