Unless the Secretary of the Navy directs that uniforms be worn at all times, and except as noted elsewhere in this chapter, civilian clothing may be worn by all officers and enlisted personnel within the Western Hemisphere (including Greenland), and in United States possessions outside the Western Hemisphere, in accordance with the following regulations. Area Commanders and the Senior Officer Present may suspend this privilege to meet local conditions, advising the Chief of Naval Personnel when such action is taken.

2. Officers are permitted to have civilian clothing in their possession aboard ship and at naval activities ashore. They may wear such clothing while leaving or returning to their ships or stations, while awaiting transportation after permission to leave the ship has been given, while on authorized leave of absence, liberty, or in an off-duty status on shore. When the privilege of wearing civilian clothing is suspended by the Secretary of the Navy, officers should not keep civilian clothing on board ship.

3. Enlisted personnel are not permitted to have civilian clothing in their possession aboard ship but may be permitted to have such clothing in their possession at naval activities ashore when specifically authorized by the commanding officer. They may wear civilian clothes while on authorized leave of absence and liberty, and may wear them to and from shore activities when so authorized by the commanding officer.

0136. APPROPRIATE CLOTHING TO BE WORN

Normally, the wearing of civilian ceremonial regalia when in uniform is improper. However, officers may wear academic regalia with the naval uniform upon occasions of academic ceremony. This authorization does not apply at U. S. ADDRESS REPLY TO:
COMMANDANT
U. S. COAST GUARD
HEADQUARTERS
WASHINGTON 25, D. C.

CAM
1 APR 1959

GENERAL ADMINISTRATION INSTRUCTION NO. 4-59

Subj: Chief Petty Officer's Cap Device; approved design of

Ref: (a) General Administration Instruction No. 3-59

1. Purpose. To inform Coast Guard enlisted personnel of pay grades E-6, E-7, E-8, E-9, all Coast Guard Exchanges, and all commands of the acceptable design for the Chief Petty Officer collar devices.

2. Discussion. Since reference (a) was distributed, several insignia manufacturers have submitted samples of a CPO collar device for Coast Guard use to Headquarters for approval. These samples have not been a replica of the CPO cap device shown on Page 10-5, CG Amendment No. 1 to U. S. Navy Uniform Regulations, 1951. For the most part, they consist of the Navy CPO cap device with a shield in place of the letters "USN".

3. Information. The device illustrated below is the official Coast Guard CPO cap device as to the design of anchor, chain, and shield.

4. Action.

a. All purchasers of the CPO collar devices from manufacturers' agents or uniform shops are advised that by separate correspondence the approved design for Coast Guard use has been distributed to insignia manufacturers and that collar devices not conforming to the design are not acceptable for sale to Coast Guard personnel.

b. Cap devices, standard and miniature size, now being worn by pay grades E-7, E-8, and E-9 or being stocked by Coast Guard Exchanges are acceptable; however new orders and future purchases shall be of the approved design rather than the altered Navy device.

c. The 1959 revision of the U. S. Navy Uniform Regulations will be amended for Coast Guard use and that section describing insignia will establish a cut-off date for the wearing of the non-approved cap device.

Service ribbons shall be worn on uniforms as designated elsewhere in these Regulations and in the manner set forth below. The order of precedence, as listed in Section 2, shall be followed.

1. When ribbons are prescribed.

(a) If six or more are possessed, a minimum of six of highest precedence shall be worn; however, all may be worn if desired.

(b) If less than six are possessed, all shall be worn.

2. They shall be worn on the left breast in horizontal rows of three each, if that number or more be possessed. If not in multiples of three, the upper row shall contain the lesser number, the center of this row to be over the center of the one below it. Ribbons shall be worn without intervals between ribbons or rows of ribbons.

3. Ribbons may be sewed to uniforms or arranged on a bar or bars to be attached to the uniform.

4. On men's uniforms they shall be worn with the lower edge of the bottom row approximately 1/4" above the left breast pocket and clear of the lapel, as far as practicable, or approximately in that position if the uniform has no pocket.

6. The arrangement of ribbons shall be by seniority, from top down and from inboard-outboard.

7. Ribbons which do not have a symmetrical color design or which have stars as part of the design shall be displayed as follows:

(a) Medal of Honor.—Two stars shall be uppermost.

(b) Presidential Unit Citation.—The blue stripe shall be uppermost.

(c) NC-4 Medal.—The colors from wearer's right shall be red, white, blue, green, red.

(d) Civil War Medal.—The blue stripe shall be inboard.

(e) World War II Theater Medals.—The blue stripe in the center shall be to the wearer's right.

(f) World War II Occupation Medal.—The black stripe shall be to the wearer's right.

2. When ribbons are prescribed any of the medals or badges listed in Article 1511 which do not have a ribbon shall be worn ¼" below the center of the bottom row of ribbons.

1521. LARGE MEDALS

1. When medals are prescribed the Medal of Honor is worn pendant from a ribbon placed around the neck under the coat. When this medal is worn with the officers' white coat, the ribbon shall pass out from inside the coat collar between the upper and lower collar hooks, the medal hanging one inch below the collar. When worn with evening clothes it shall hang one inch below the tie. When worn with the blue service coat and the chief petty officer type white coat, the medal hangs just below the opening where lapels meet. Enlisted men, other than chief petty officers, shall wear the medal so that the ribbon passes around the neck under the collar and the medal hangs just below the neckerchief knot.*

3. Large medals shall be worn in a horizontal row or rows centered above the left breast pocket of Full Dress uniforms. The holding bar of the lowest row shall be attached immediately above the pocket, except that on women's blue and white uniforms the first row of large medals shall be worn on the left breast pocket flap.* On blue uniforms the holding bar may be placed just above sewed-on ribbons, which are covered by a dark-blue patch. Each row of medals to be a maximum of 4-⅛" wide (3 medals or less side by side or up to 5 medals overlapping) and 3-¼" long from top of ribbons to bottom of medals, so that bottom of medals dress in a horizontal line. When a medal or badge has an exposed bar

at the top of the ribbon, such bar shall be mounted on the front of the holding bar or shall form a part of the bar, and where there are several such exposed bars on a single medal or badge, the uppermost bar shall be so mounted. When the number of medals and badges exceeds three, they shall overlap, each medal or badge partially covering the one on its left and the right-hand (inboard) one showing in full, the overlapping being equal for all of the medals worn. The maximum number of medals worn in one row shall be five. All decorations and awards shall be worn up to a minimum of five of highest precedence; all may be worn if desired. When more than one row is worn no row is to contain a lesser number of medals than the row above. All rows under the uppermost shall contain the same number of medals; equal to or greater than the number in the uppermost row. When Blue Full Dress uniform is prescribed, a patch of dark blue material 4½" wide and about 2" deep, matching the uniform fabric, may be worn as a backing for the medals to completely cover service ribbons already attached to the uniform. Lower rows of medals, if worn, shall be mounted so the lower medals hang just clear of medals above.

4. When large medals are worn, the Presidential Unit Citation, Distinguished Unit Emblem or the Navy Unit Commendation ribbon shall be worn on the right breast in the same relative position as medals are worn on the left. If the individual has been awarded more than one of the above ribbons, he shall wear only the senior one.

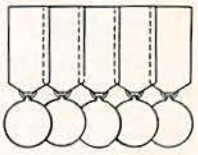

1522. MINIATURE MEDALS

Miniature replicas of all decorations (except the Medal of Honor) and medals shall be of a scale one-half that of the original.

1. Miniature medals shall be worn with Evening Dress Blue, Evening Dress White, Evening Dress White Jacket, and Dinner Dress White Jacket; suspended from a horizontal bar or bars. The holding bar shall be no longer than 4-⅛". If 2-¾"or less in length, the bar shall be centered on the left lapel; if of greater length, the bar shall extend over the edge of the lapel onto the left breast of the coat.

2. When a medal or badge has an exposed bar at the top of the ribbon, such bar shall be mounted on the front of the holding bar, or shall form a part of the bar, and where there are several such exposed bars on a single medal or badge, the uppermost bar shall be so mounted.

3. When the number of miniatures would exceed the length of the holding bar, they shall be overlapped sufficiently to be mounted on the bar; each medal partially covering the one on its left, and the right-hand (inboard) one showing in full. The overlapping shall be equal for all of the medals worn, but not exceeding 50% overlap. The maximum number of medals or badges worn in one row shall be eleven (corresponding to a 4-⅛" bar and 50% overlap). At least four decorations and awards shall be worn; all additional medals to which entitled may be worn as desired. Officers who have been awarded less than four medals shall wear all of them. If more than eleven miniatures are worn, they shall be arranged in two rows; if more than 22, then in three rows.

4. The holding bar for the suspension of medals and badges shall be of metal or other material of sufficient stiffness and shall be wholly covered by the ribbons. Miniatures mounted in accordance with previous regulations (5 medals per bar) may continue to be worn without change. Holding bars commonly available are of the following standard lengths:

1-⅜"—minimum 2 miniatures; maximum 3 overlapped 50%.

2-¾"—minimum 4 miniatures; maximum 7 overlapped 50%.

4-⅛"—minimum 6 miniatures; maximum 11 overlapped 50%.

5. The arrangement of medals and badges shall be by seniority, from inboard-outboard and from top to bottom.

6. Recipients of unit awards or decorations for which no medals are provided, such as the Presidential Unit Citation, Distinguished Unit Emblem, or Navy Unit Commendation, may wear such ribbon award in miniature (½ size) in regular order of seniority on same bars with miniature medals.

1523. BADGES OF MILITARY SOCIETIES, VETERANS AND CIVILIAN ORGANIZATIONS

Persons who by right of inheritance and election are members of these societies are members thereof "in their own right."

1. Foreign awards which are similar in design to American awards, or ribbons thereof, may be worn on the same occasions prescribed for wearing of American awards.

(a) They shall be arranged in the order of their receipt, after all American awards. When an individual possesses two or more awards from the same foreign country the order of precedence of those particular awards shall be determined by the rules of the country concerned.

(b) An individual who does not possess the Medal of Honor but who has received a foreign

decoration which, under the rules of the country concerned, is required to be worn at the neck, will so wear it. Individuals who have been awarded the Medal of Honor and a foreign decoration which, under the rules of the country concerned, is required to be worn at the neck, shall wear the foreign award so that it shall show below the Medal of Honor.

2. Foreign awards, such as stars and sashes or Orders, or other devices (except the Fourragère) which are dissimilar to, or are required to be worn in a manner which differs from that prescribed for American awards authorized for wear by naval personnel, may be worn only as a courtesy to the country concerned when the individual is attending a public function in any country, in the house of, or in honor of, a public official or other distinguished citizen or subject of the country whose decoration he possesses.

(a) These awards shall be worn as nearly as practicable in accordance with the regulations of the country concerned.

3. A foreign award shall not be worn alone. At least one American award must be worn with it.

4. Naval personnel entitled to wear the Fourragère may wear it on all naval uniforms whenever decorations, medals, badges or their ribbons are prescribed.

(a) In order to attach the Fourragère to the naval uniform, a button may be sewed to the left shoulder of the coat or jumper under the collar. The Fourragère, if worn, shall be over the left shoulder with the left arm passing through the large loop of the cord; the small loop shall engage the button under the collar, and the metal pencil shall hang naturally at the front. When a Fourragère is worn with aiguillettes, it shall be worn under the aiguillettes.

1701. GENERAL

The longest service of the various articles of the prescribed uniform can be obtained only by proper care and maintenance. The information contained in this chapter is presented in order that the useful life of uniforms and equipment may be prolonged and also that they may be worn with the justifiable pride which should distinguish a naval or military uniform. No matter how well fitting a uniform is when new, especially the coat, it will not continue to look its best or keep its shape unless it is carefully put on and kept buttoned. The carrying of large or heavy objects in the pockets will speedily destroy the shape of the best uniform. Uniforms should always be kept on hangers when not in use.

1702. BLOOD STAINS, REMOVAL OF

To remove dried blood, stains should first be brushed with dry brush to break up and remove as much as possible and then soaked in cold water for about an hour followed by regular washing. Should slight trace of stain remain, apply solution of ammonia.

1703. BUTTONS, CLEANING OF

Buttons sometimes turn green when the gold plating is worn off and the copper base becomes covered with green copper carbonate due to exposure to moist air. This can be removed by rubbing gently with acetic acid or any substance containing this acid, such as vinegar or Worcestershire sauce, followed by a thorough washing in fresh water and drying.

1704. CAP DEVICES, EMBROIDERED; CLEANING OF

These and other embroidered insignia may be kept new and bright by scrubbing them occasionally with a nail brush and ammonia which has been diluted with water. This should be done as soon as there are any signs of tarnishing or

corrosion. If corrosion has been allowed to continue until it has gained a stronghold, the device cannot be restored to its original condition.

1705. CAP DEVICES, METAL; CLEANING OF

The gold part of this device may be cleaned by washing it with soap and water or by rubbing it with any kind of polishing cloth; the sterling silver part can be cleaned with any silver polish.

1706. CHOCOLATE, GRAVY, AND OTHER FOODSTUFFS; REMOVAL OF

Sponge the stain thoroughly with cold water. If a grease stain persists, dry thoroughly and then sponge with a little naphtha, carbon tetrachloride, or benzine.

1707. COAT, FOLDING OF

Spread it out, lining down, on a table and turn up the collar. Straighten out the sleeves and fold each side from the lapel notch, bringing lower corners to center seam. Fold the coat over once on center seam. If the container will not allow the coat to be packed at its full length, turn the sleeves up at the elbow before folding the coat.

1708. CUTS IN SERGE OR CLOTH UNIFORMS; REPAIRING OF

A clean cut in a serge or cloth uniform can be repaired by being rewoven with threads drawn from the material in another part of the garment. This process is rather expensive, but a cut so repaired cannot be detected after being rewoven.

1709. GOLD LACE; CARE OF

Gold lace will rapidly tarnish and deteriorate if in contact with or hung near any substance containing sulphur, such as rubber or ordinary manila and kraft wrapping paper.

1710. GOLD LACE; REMOVAL OF TARNISH FROM

Gold lace should normally be cleaned by an experienced tailor although non-toxic instant silver polishes available commercially may be used if carefully applied in conformance with manufacturer's instructions.*

1711. IODINE STAINS; REMOVAL OF

Iodine stains can be readily removed by applying a solution of "Hypo" (sometimes called "antichlor"), used in photography or sodium hyposulphite and then rinsing thoroughly with water. The use of "Hypo" should be limited to white cotton only. They may also be removed by using starch as prepared for laundry purposes. A solution of ammonia may also be used for this purpose.

1712. KEROSENE; REMOVAL OF

Wash in a solution of warm, soapy water.

1713. MILDEW; REMOVAL OF

If stain is recent, simply use cold water. Old mildew stains may be bleached provided the material is white cotton.

1714. MOTHS; PREVENTION OF

Frequent brushing and exposure to sunshine and fresh air will effectually prevent moths. If uniforms are to be put away for a long time and left undisturbed, thoroughly clean, then pack away in an airtight plastic bag, or with camphor balls, naphthalene, cedar wood, paradichlorobenzine, or sprayed with a solution containing DDT.

1715. OIL OR GREASE; REMOVAL OF

Place garment on table and put clean cloth, or other absorbent material, under stain and apply carbon tetrachloride, petroleum benzine, or benzol on stain and tamp it, driving oil and grease into the absorbent material. If stain is heavy, shift cloth to a clean place and flush with more cleaning solvent. To eliminate ring, saturate clean cloth with cleaning solvent and sponge lightly working from the center of stained area outward.

1716. PAINT STAINS; REMOVAL OF

Paint stains, while still fresh, can be removed by use of the method given above for removing oil or grease. Old and hard paint stains are difficult to remove and, if possible, should be sent to a reliable dry cleaner. A treatment for old paint stains is to apply turpentine and allow to stand for an hour. Then with teaspoon, or other blunt instrument, break up the stain and flush out as outlined in procedure for oil and grease. (See Art. 1715.)

NOTE.—Always use a tamping action when spotting fabrics. Even the most delicate weaves may be struck vigorously with a brush using a perpendicular action. Rubbing is liable to leave a chaffed area with subsequent damage to color and weave.

1717. PARAFFIN AND WAX; REMOVAL OF

Place blotting paper over the spot and apply hot iron to the blotting paper. Continue this, using clean blotting paper, until the spot is removed.

1718. RUST, INK AND FRUIT STAINS; REMOVAL OF

Soak the stained part in a solution of oxalic acid or put some powdered oxalic acid or sodium or potassium acid oxalate on the stain previously moistened with water and rub with a piece of white cotton or linen. The stain will dissolve and can be washed out with water. Do not allow the oxalic acid solution to dry in the fabric as it will damage the material but thoroughly rinse it immediately, preferably with warm water. Oxalic acid and its soluble salts are very poisonous and care should be taken in handling them.

1719. SHINE; REMOVAL OF FROM BLUE UNIFORMS

The spot to be treated should be steamed by laying a wet cloth over it and pressing with a hot iron and then rubbing it very gently with a piece of "OO" sandpaper or emery cloth. This should be done by a regular tailor. Sponging with a dilute (1:20) solution of ammonia, previous to the steaming is also recommended.

1720. SINGE MARK; REMOVAL OF FROM BLUE UNIFORMS

A light singe mark on blue serge or cloth should be rubbed vigorously with the flat side of a silver coin. This will in many cases make a great improvement in appearance. It is, however, not effective in the cases of bad singes or scorches. Many singed marks can be removed by sponging with a 3 percent solution of hydrogen peroxide and allowing to dry in direct sunlight. The use of the hydrogen peroxide method on woolen or dyed fabrics is not recommended.

1721. WOOLEN GARMENTS; LAUNDERING OF

1. In laundering woolen goods, only a neutral soap should be used with fresh lukewarm water. If hard water is used, a little borax should be added to the water in order to soften it. In laundering blue uniforms a thick suds is necessary for the best results. The soap should be thoroughly dissolved in hot water and added to the cool water of the bath. In order to preserve the face finish, rubbing should be reduced to a minimum. Thorough rinsing is necessary to remove all traces of the soap. Use plenty of soap and water in the washing and plenty of water in the rinsing. When washing machines are used avoid low water levels that produce a pounding action on the garments.

2. After washing they should be centrifugally dried or squeezed gently to remove the surplus water and then dried in the open air, if the temperature is above freezing. If the temperature is otherwise, they should be dried at ship's temperature below decks. Colored garments should not be hung in the sun after washing to dry. When this cannot be avoided, the garments should always be turned inside out. Pressing after laundering will greatly improve the appearance of the laundered garments.

3. Heat, friction, pressure, and soap produce felting. Felting, weave take-up, and elongation in the finishing processes are the chief reasons for shrinkage. In laundering woolens avoid high temperature, friction, and pressure as much as possible. Never run woolen goods

through a wringer or twist them to remove the excess of rinsing water before drying. When an extractor is not available, hang the wet garments out to dry without wringing. After washing, napped goods can be rubbed with flannel to soften the surface.

4. The tape on collars and cuffs of jumpers can be cleaned (without washing the entire jumper) by scrubbing lightly with a nail brush, using a neutral soap sparingly with slightly warm water.

5. Blue cloth trousers and jumpers should not be washed more frequently than necessary. Dry cleaning preserves the original finish and appearance of the garments. Particularly in case of dress blue jumpers and trousers, it is recommended that, if possible, the garments be dry cleaned rather than washed in a laundering machine.

6. Never use Chlorox, Javelle water, or other chlorine bleaches on woolen garments or blankets. Even in diluted solutions it yellows and weakens the wool fibers and in stronger solutions dissolves them completely.

1820. DISCRIMINATION AGAINST THE NAVAL UNIFORM

Act of March 1, 1911, as amended; 18 U. S. C. 523. (For information as to various State laws, the statutes of the various States should be consulted.)

No proprietor, manager, or employee of a theater or other public place of entertainment or amusement in the District of Columbia, or in any Territory, the District of Alaska, or Insular possession of the United States, shall make, or cause to be made, any discrimination against any person lawfully wearing the uniform of the Army, Navy, Revenue-Cutter Service, or Marine Corps of the United States because of that uniform, and any person making, or causing to be made, such discrimination shall be guilty of a misdemeanor, punishable by a fine not exceeding five hundred dollars.

1821. PROTECTION OF THE UNIFORM ACT

Act of June 3, 1916, ch. 134, sec. 125, 39 Stat. 216-217, as amended; 10 U. S. C. 1393; provides that--

It shall be unlawful for any person not an officer or enlisted man of the United States Army, Navy, Marine Corps, or Coast Guard, to wear the duly prescribed uniform of the United States Army, Navy, Marine Corps or Coast Guard, or any distinctive part of such uniform, or a uniform any part of which is similar to a distinctive part of the duly prescribed uniform of the United States Army, Navy, or Marine Corps: Provided,

That the foregoing provision shall not be construed so as to prevent officers or enlisted men of the National Guard from wearing, in pursuance of law and regulations, the uniform lawfully prescribed to be worn by such officers or enlisted men of the National Guard;

Nor to prevent members of the organization known as the Boy Scouts of America, or the Naval Militia, or such other organizations as the Secretary of the Army or the Secretary of the Navy may designate, from wearing their prescribed uniforms;

Nor to prevent persons who in time of war have served honorably as officers of the United States Army, Navy, Marine Corps, or Coast Guard, Regular or Volunteer, and whose most recent service was terminated by an honorable discharge, muster out, or resignation, from wearing, upon occasions authorized by regulations of the President, the uniform of the highest grade they have held by brevet or other commission in such Regular or Volunteer Service;

Nor to prevent any person who has been honorably discharged from the United States Army, Navy, Marine Corps, or Coast Guard, regular or volunteer, from wearing his uniform from the place of his discharge to his home, within three months after the date of such discharge;

Nor to prevent the members of military societies composed entirely of honorably discharged officers or enlisted men, or both, of the United States Army, Navy, Marine Corps, or Coast Guard, Regular or Volunteer, from wearing,

upon occasions authorized by regulations of the President, the uniform duly prescribed by such societies to be worn by the members thereof;

Nor to prevent the instructors and members of the duly organized cadet corps of a State university, State college, or public high school offering a regular course in military instruction from wearing the uniform duly prescribed by the authorities of such university, college, or public high school for wear by the instructors and members of such cadet corps;

Nor to prevent the instructors and members of the duly organized cadet corps of any other institution of learning offering a regular course in military instruction and at which an officer or enlisted man of the United States Army, Navy, Marine Corps, or Coast Guard, is lawfully detailed for duty as instructor in military science and tactics, from wearing the uniform duly prescribed by the authorities of such institution of learning for wear by the instructors and members of such cadet corps;

Nor to prevent civilians attendant upon a course of military or naval instruction authorized and conducted by the military or naval authorities of the United States from wearing, while in attendance upon such course of instruction, the uniform authorized and prescribed by such military or naval authorities for wear during such course of instruction;

Nor to prevent any person from wearing the uniform of the United States Army, Navy, Marine Corps, or Coast Guard, in any playhouse or theater or in moving-picture films while actually engaged in representing therein a military or naval character not tending to bring discredit or reproach upon the United States Army, Navy, Marine Corps, or Coast Guard;

Nor to prevent graduates of Air Corps advanced flying schools or Air Corps service schools who are citizens of foreign countries from wearing the appropriate aviation badges of the Army in such manner and subject to such regulations as the Secretary of the Army may prescribe;

Provided further, That the uniforms worn by the members of the military societies or the instructors and members of the cadet corps referred to in the preceding proviso shall include some distinctive mark or insignia to be prescribed by the Secretary of the Army or the Secretary of the Navy to distinguish such uniforms from the uniforms of the United States Army, Navy, Marine Corps, or Coast Guard:

And provided further, That the members of the military societies and the instructors and members of the cadet corps hereinbefore mentioned shall not wear the insignia of rank prescribed to be worn by officers of the United States Army, Navy, Marine Corps, or Coast Guard, or any insignia of rank similar thereto.

The provision of this section shall apply to the Canal Zone, Guam, American Samoa, and the Virgin Islands, as well as to all other places within the jurisdiction of the United States.

Hereafter, upon the discharge or furlough to the reserve of an enlisted man, all uniform outer clothing then in his possession, except such articles as he may be permitted to wear from the place of termination of his active service to his home, as authorized by this section, will be retained for military use;

Provided, That upon the release from Federal service of an enlisted man of the National Guard called as such into the service of the United States, all uniform outer clothing then in his possession shall be taken up and accounted for as property issued to the National Guard of the State to which the enlisted man belongs, in the manner prescribed by Sections 21, 22, and 49 of this Title 32; Provided further, That when an enlisted man is discharged for bad conduct, undesirability, unsuitability, inaptitude, or otherwise than honorably, all uniform outer clothing in his possession shall be retained for military use, and, when authorized by regulations prescribed by the Secretary of the Army or the Secretary of the Navy, a suit of civilian outer clothing, and a civilian overcoat when necessary, the total cost not to exceed $30, may be issued to such discharged enlisted man of the Army, Navy or Marine Corps: And provided further, That officers and members of any national home for veterans administered by the Veterans' Administration may wear such uniforms as the Secretary of the Army or the Secretary of the Navy may authorize.

The Judge Advocate General has interpreted the phrase "within 3 months after date of discharge," as it appears in the above act relative to discharged enlisted personnel, to mean the period between the date of discharge and the date of the person's arrival home. It does not permit the wearing of the uniform after arrival home even though the 3 months' period has not expired.

In accordance with the provisions of the above act, the Secretary of the Navy prescribes that the following distinctive mark be worn on the uniform by members of military societies which are composed entirely of honorably discharged officers and enlisted personnel, or by the instructors and members of duly organized cadet corps, as mentioned in the above act. The distinctive mark shall be a diamond, 3 1/2 inches long in the vertical axis and 2 inches wide in the horizontal axis, of any cloth material, white on blue, forestry green, or khaki clothing and blue on white clothing. This mark shall be worn on all outside clothing on the right sleeve, at the point of the shoulder, the upper tip of the diamond to be one-fourth inch below the shoulder seam.

1822. NAVAL UNIFORM, WEARING OF BY MEMBERS OF NAVAL RESERVE

The Naval Reserve Act, 1938, approved June 25, 1938, ch. 690, title III, sec. 301, 52 Stat. 1180, is quoted in part as follows:

All members of the Naval Reserve, when employed on active duty, authorized training duty, with or without pay, drill, or other equivalent instruction or duty, or when employed in authorized travel to or from such duty, or appropriate duty, drill, or instruction, or during such time as they may by law be required to perform active duty, or while wearing a uniform prescribed for the Naval Reserve, shall be subject to the laws, regulations, and orders for the government of the Navy.

1823. NAVAL UNIFORM, WEARING OF BY PERSONS WHO SERVED HONORABLY IN TIME OF WAR

Act of June 21, 1930 (46 STAT. 793),

as Amended (10 U. S. C. 1028b; 34 U. S. C. 399d)

"Sec. 2. All persons who have served honorably in the Army, Navy, Air Force, or Marine Corps of the United States during war shall, when not in the active military and/or naval service of the United States, be entitled to bear the official title and upon occasions authorized by regulations of the President to wear the uniform of the highest grade held by them during their war service."

1. Eligibility. Any person who has served honorably in the Army, Navy, Air Force, or Marine Corps, of the United States during war, and whose most recent service was terminated under honorable conditions, shall, although not in the active military service of the United States, be entitled to wear the uniform of the highest grade satisfactorily held during his or her war service upon the following occasions of ceremony:

(a) Military funerals, memorial services, and inaugurals.

(b) Patriotic parades on national holidays, or other military parades or ceremonies in which any active or reserve United States military unit is taking part.

Nothing in the foregoing shall prevent the wearing of uniforms when otherwise authorized by law.

2. Persons Awarded the Medal of Honor. Persons awarded the Medal of Honor are authorized to wear the uniform at any time except as prohibited below.

3. Occasions Upon Which Prohibited. Wearing of the uniform is prohibited.

(a) At any meeting or demonstration which is a function of, or sponsored by, any organization, association, movement, group, or combination of persons which the Attorney General of the United States has designated as totalitarian, fascist, communist, or subversive, or as having adopted a policy of advocating or approving the commission of acts of force or violence to deny others their rights under the Constitution of the United States, or as seeking to alter the form of government of the United States by unconstitutional means.

(b) In connection with non-military activities of a business or commercial nature.

(c) Under any circumstances which would tend to bring discredit or reproach upon the uniform.

4. Travel. Authority to wear the uniform includes periods while traveling to and from the ceremony, provided such travel in uniform is performed within 24 hours of the time of the ceremony. When the uniform is worn under the provisions of this instruction by honorably discharged personnel who served during World War II, the Honorable Discharge Emblem shall be worn.

1824. NAVAL UNIFORM; WEARING OF BY RETIRED OFFICERS OF THE REGULAR NAVY Sec. 1457, R. S.

Officers retired from active service shall be placed on the retired list of officers of the grades to which they belonged respectively at the time of their retirement, and continue to be borne on the Navy Register. They shall be entitled to wear the uniform of their respective grades, and shall be subject to the rules and articles for the government of the Navy and to trial by general court martial. The name of officers wholly retired from the service shall be omitted from the Navy Register.

UNIFORM CIRCULAR NO. 1-54

Subj: Major changes to Uniform Regulations

1. Purpose. To affirm that Change Memorandum 1-4 to Navy Uniform Regulations, 1951, which is being separately distributed, is applicable to the Coast Guard, and to amplify some of the changes.

2. Discussion.

a. Change Memorandum 1-4 prescribes a new full dress uniform which includes large medals and a sword. The sword is required for all permanent regular commissioned officers as a part of this uniform, commencing 1 July 1954 for flag officers and captains, and at successive six month intervals for each succeeding lower rank. The sword is optional for officers having only an appointment for temporary service and for male reserve officers. Several other changes in officers' uniforms are also included, affecting optional items in most instances.

b. The sword, sword belt, and sword knot in use prior to 1941 may be used by officers possessing them. Revised specifications for these items differ only in minor details from those previously in use. These specifications will provide:

(1) That the Coast Guard sword and scabbard will be the same as that of the Navy except that the letters "USCG" will be substituted for "USN" on the hilt and in two places on the blade; "USCG" will be substituted for "USN" within the small flag engraved on the blade, if practicable, otherwise the flag on the Coast Guard sword will contain no lettering.

(2) The Coast Guard sword belt will be the same as that of the Navy except for the buckles. The buckles will be of the same general design, rectangular in shape, with a central circular insignia. This circular insignia will be the standard button insignia of the Coast Guard for the Coast Guard buckle and of the Navy for the Navy buckle.

(3) The sword knot will be the same for both services.

3. Source of procurement. It is anticipated that swords, belts, and knots will be available through dealers in uniform equipment before 1 July 1954.
