## Government Furnished Property (GFP)

Gregg Howard, Industrial Property Manager

Overview for TOS II Acquisition

Industry Day 2

August 2022

- 
- **Contractors are ordinarily required to furnish all property necessary to perform Government contracts**
  - **Contracting officer shall provide property when it is clearly demonstrated:**
    - To be in the Government's best interest
    - That the benefit to the acquisition significantly outweighs the increased cost of administration, including disposal
    - That providing the property does not substantially increase the Government's assumption of risk
    - That Government's requirements cannot otherwise be met
  - **GFP limited to Mission Critical Assets**
    - Federal Acquisition Regulation (FAR) and Air Force Logistics Regulations are complex
    - DoD is focused on GFP accountability and audit readiness
    - A large GFP footprint requires overhead increases in manpower, computers, oversight, and program management
    - Audits and inspection activities may conflict with test support
    - AEDC is low priority when competing for DoD owned assets

## ***GFP Administration***

- **If GFP is provided, then the contractor must submit Property Management Procedures to the Government**
  - **The Government Property Administrator (GPA) will review Contractor Property Management System (PMS) for acceptance**
- **Contractors are required to perform self-assessments**
- **The Government will perform recurring audits of contractor PMS**
- **Contractors are required to complete contract closeout**
  - **Inventory of GFP**
  - **Disposition of excess GFP**
- **Contractors are required to comply with FAR 52.245-1, *Government Property*, and mandatory clauses and Air Force Regulations**
