2019-CGFO-01757	5/24/2019	<p>Please allow this email to serve as a request for information under the Freedom of Information Act. Attached, please find the 3/23/17 Memorandum from Capt. M.M. Dean to Capt. L.A. Allen regarding the Main Channel WAMS Survey that was conducted of the Miami Main Channel. In paragraph 3 of the attached Memorandum, there are two sentences which read as follows: 1. "Visually lighting the jetties would not conform to AtoN standards and may confuse the non-professional mariner because there are existing lighted buoys already marking safe water at the end of the jetties." and 2. "Lighting the jetties may also impact sea turtle nesting and cause just-hatched turtles to swim toward the lights and not out to sea." With respect to the sentence in paragraph 1 above, I would like to request a copy of the AtoN standards referenced. I would also like to obtain a copy of the documentation which supported the statement that lighting the jetties could confuse the non-professional mariner. With respect to the sentence in paragraph 2 above, I would like to obtain a copy of any expert report, opinion and/or document which supported the statement that lighting the jetties could impact sea turtle nesting. Lastly, I would also like to obtain copies of any reports which relate and/or pertain to any incidents involving any boat that has contacted and/or allided with any portion of the north or south jetties at Government Cut at any time after 9/25/16.</p>	Marx, Bruce
