

DynaMed CME/CNE Instructions

Installing the DynaMed Mobile App

Q. How do I download and authenticate the app on my device?

1. Begin by downloading the DynaMed app from the iTunes or Google Play app store.
2. Sign in with your Personal User Account. Tap “Sign In” and enter your personal user account credentials. Then tap the Sign In button. This authentication type provides access personalized features including CME/CE/CPD tracking and favorite/recent topics.

If you don't have a personal account, create one by accessing DynaMed on the web through your institution and registering for an account.

3. After you log in, you are prompted to install via one of the following options:
 - Online Only: Use the app only while connected to the Internet. OR
 - Partial Install: Store text and image thumbnails on your device. Full images are available when you are connected to the internet. This option helps you save space on your device. OR
 - Full Install: Store all DynaMed content on your device. You do not need to be connected to the internet to access content on the app.

After choosing an installation option, you can use the app online while the content is downloaded to your device. You are notified when your download is complete, and the app can be used while offline.

Note: It is recommended that you are on a Wi-Fi connection for the initial download of DynaMed content as well as when updates become available. Requires at least 93.5 MB of memory for the Online Only Install. (all content and images accessible via internet connection.)

Q. Can I install the DynaMed app on multiple devices?

Yes. Your Personal Account credentials can authenticate the DynaMed app on up to three separate devices.

Q. Can I use the DynaMed app offline?

After installing the app and downloading the partial or full install of DynaMed content, the app can be used offline without a wireless signal. Full images are not available with the partial install. A wireless signal is required to perform updates to the DynaMed content when updates become available.

Q. Does the DynaMed app authentication expire?

Your Personal Account credentials will authenticate the app for 3 months. After that time, the app will prompt you to reenter your active credentials.

Using the DynaMed Mobile App

Q. How do I search the app for DynaMed topics?

To search the DynaMed app:

1. Open the app and tap the **search box** on the screen to begin typing your terms. As you type, topics matching your terms appear.
2. Select a DynaMed topic under **Go To** to go directly to the topic or select a search term under **Search For** to view a result list.

You can also tap the magnifying glass at the left of the search box at any time to view a result list.

To perform a new search at any time, tap the Search icon.

Q. How do I access Calculators in the DynaMed app?

To access DynaMed calculators:

1. Open the app and tap **Calculators** in the menu on the home screen.
2. Select a calculator from the list or begin entering terms in the **Search Calculators** field to find a specific calculator.

3. Enter your information and make your selections in the calculator.

Q. How do I browse the DynaMed app by Specialty?

To browse the DynaMed app by specialty:

1. Open the app and tap an image under **Specialty** on the home screen or tap the **View All** link to select from all of the available specialties.
2. Select a specialty from the list and continue making selections until you find the desired DynaMed topic.

Q. How do I view recent updates to DynaMed content in the app?

To view recent updates to DynaMed content:

1. Open the app and tap **Updates** in the menu on the home screen.
2. View **Practice Changing Updates Only** by tapping to enable the limiter at the top of the list.
3. Toggle between your followed topics or all topics using the **My Topics** and **All Topics** buttons at the top of the list.

Q. How do I view the sections of a DynaMed topic?

When viewing a DynaMed topic, you can select to view individual sections of the topic (General Information, Epidemiology, History and Physical, etc.) by tapping the menu icon at the bottom right of the topic and tapping a section name from the list.

Q. How do I follow a DynaMed topic?

To follow a DynaMed topic:

1. From a DynaMed topic, tap the ellipsis menu in the upper right.
2. Tap **Follow Topic** from the resulting options.

You can stop following a topic by accessing the menu and tapping **Unfollow Topic**.

View your followed topics and updates to those topics by tapping Updates and My Topics from the menu on the home screen.

Q. How do I check for updates the DynaMed Mobile app?

The content in the DynaMed mobile app is automatically updated while the app is in use and you are online. If you have not used the app while online, you may want to force an update, which will install all content updates since your last online use.

To check for DynaMed content updates:

1. Tap the menu icon in the upper left of the screen
2. Tap **Update** in the menu that appears on the screen.

A wireless signal is required to perform updates to the DynaMed content when updates become available.

Q. How can I set the DynaMed app to notify me when my followed topics receive practice-changing updates?

To enable notifications for practice-changing updates:

1. Tap the menu icon in the upper right of the screen
2. Tap **Settings** to access the settings menu.
3. Tap **Notifications**.
4. Tap the slider next to Practice-Changing Notifications to enable the setting. (Setting is displayed as green when enabled.)
5. Tap **Close** to close the menu.

When an update notification is displayed on your home screen, you can tap it to view the updated topic.
