

ERDC

ENGINEER RESEARCH & DEVELOPMENT CENTER

**NEW ways to
make the world
safer and better...**

DISCOVER | DEVELOP | DELIVER

The U.S. Army Engineer Research and Development Center helps solve our Nation's most challenging problems in civil and military engineering, geospatial sciences, water resources and environmental sciences for the Army, Department of Defense, civilian agencies and our Nation's public good. Our vision is to become the world's premier public engineering and environmental sciences research and development organization.

WE ARE ERDC

Headquartered in Vicksburg Mississippi, the U.S. Army Engineer Research and Development Center operates seven unique laboratories in four states:

Vicksburg, Mississippi

1. Coastal and Hydraulics Laboratory
2. Environmental Laboratory
3. Geotechnical and Structures Laboratory
4. Information Technology Laboratory

Champaign, Illinois

5. Construction Engineering Research Laboratory

Hanover, New Hampshire

6. Cold Regions Research and Engineering Laboratory

Alexandria, Virginia

7. Geospatial Research Laboratory

With an annual research program exceeding \$1 billion, ERDC scientists, engineers, technicians and administrative and support personnel develop far-reaching technologies and innovative solutions for a safer, better world.

RESEARCH

As one of the most diverse engineering and scientific research organizations in the world, ERDC develops innovative products and services that help solve the Nation's toughest engineering and environmental challenges. ERDC research laboratories focus on five major areas:

1. Military Engineering
2. Geospatial Research and Engineering
3. Engineered Resilient Systems
4. Installations and Operational Environments
5. Civil Works and Water Resources

ERDC's workforce includes more than 2,181 employees; 1,330 engineers and scientists, many with advanced degrees and international recognition in their areas of expertise. ERDC also partners with leading experts from other agencies, academia and private industry to provide solutions for the U.S. Army, Department of Defense, civilian agencies and the Nation.
