

## Reports in the Report Scheduler

### Introduction

The Defense Travel System (DTS) allows you to generate reports that compile data in a variety of categories from the contents of DTS travel documents and personal profiles. The Report Scheduler is a vital tool for monitoring and managing your organization’s travel program and supporting Travel Compliance audits.

You need organization access and permission level 0 to access **Report Scheduler**. **Note:** Some reports require additional permission levels or role appointments. For more on granting permission levels and accesses in profiles, see the [DTA Manual, Chapter 3: DTS Site Setup](#).

*\*In this information paper, “you” are a DTA or someone required to run DTS Reports.*

<p>** All reports in this category require MIS Access.</p> <p>*** The report names are visible in the Report Scheduler, but you cannot select them because they contain Personally Identifiable Information (PII). You may be able to use the <b>Business Intelligence Reporting Tool (BIRT or BI and Reporting Tool)</b> to obtain travel data. If not, submit a help desk ticket regarding your reporting requirements. Depending upon the need, you may be recommended use the Defense Manpower Data Center Reporting System (DMDCRS) to access the ad hoc data.</p> <p>**** All reports in this category can be used to identify potential documents that may be subject to audit.</p>		

**Report Scheduler Process Flow**

Begin by logging into DTS.

1. From the DTS **Dashboard's Administration** drop down (Figure 1), select **Report Scheduler**.

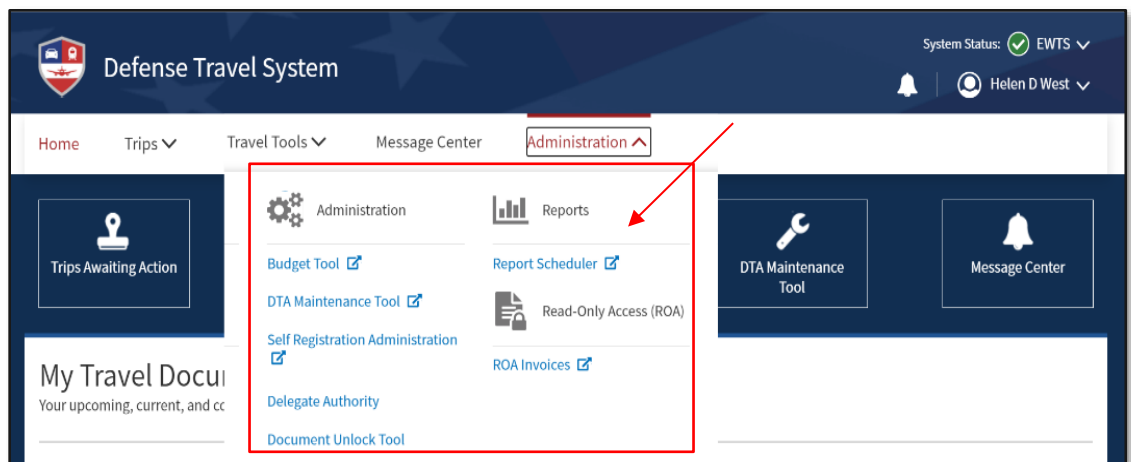

Figure 1: DTS Dashboard

2. On the landing page, select **Request New Report** link. The **Report Scheduler Home** page opens, displaying the categories and reports you can request (Figure 2).

Report Scheduler Process Flow (continued)

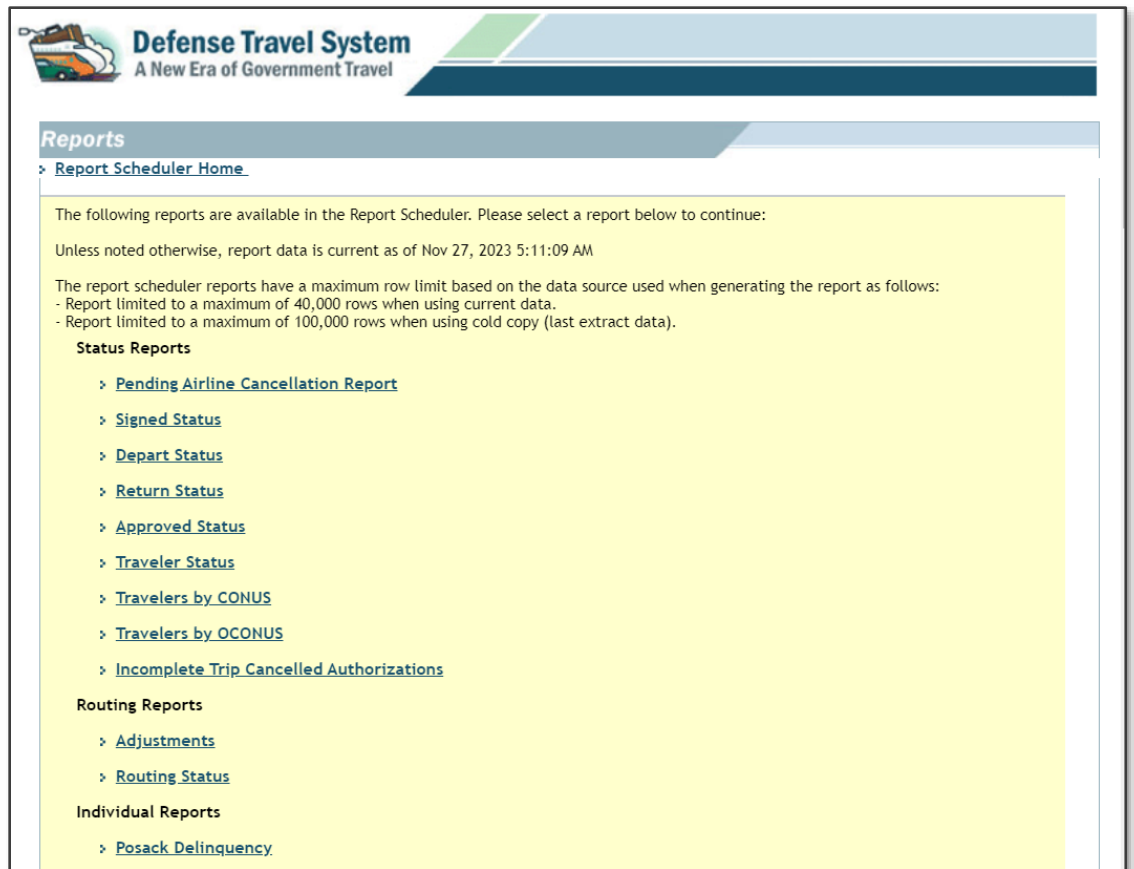

Figure 2: Report Scheduler Home Screen (Partial View )

3. Select the report link you need and the window opens. Enter the required search criteria, add any optional criteria you want to add, and select **Submit**. Based upon the type of report, the search criteria may differ (Figure 3).

**Pending Airline Cancellation Report**

The Pending Airline Cancellation Report will provide the user with a list of travel authorizations containing airline reservations that have pending routing actions. The report will assist the user in identifying authorizations requiring action (e.g. REVIEWED and APPROVED) to prevent the cancellation of airline reservations. The Pending Airline Cancellation Report will be generated according to the given DTS organization and number of clock hours (minimum 24 maximum 150), which is based on the flight departure date and time. Included in the report is the organization, traveler name, SSN, email, PNR locator, departure date, departure time, document name and document status.

**Pending Airline Cancellation Report Search Criteria**

Please Note: A Red Star ( \* ) indicates a field is required.

\* Organization:  (Start typing to get Organizational Access)  
 (minimum of 2 characters)

Include Sub Organizations:

Number of Hours to Departure:

The report data requested will consist of current data when the search criteria organization field is an organization of 4 characters or more (regardless of the include sub-organization selected). If search criteria is for an organization with less than 4 characters, regardless of the include sub-organization selected, the report data requested will consist of the most recent data as of the time of the last data extraction

Figure 3: Report Search Criteria Screen

- After you submit the request, the screen refreshes providing an explanation of the remaining **Report Scheduler** process (Figure 4).

**Note:** Some reports may take a few minutes to hours to generate depending on how much data is being compiled. A few reports may run during off hours or overnight. You can wait for the email to inform you or access **Report Scheduler** to view the status. If your report fails to run the status updates and you receive an email. You can either re-run the same report or change the search criteria then try again.

**Reports**

> [Report Scheduler Home](#) > [Request New Report](#)

The report has been submitted as a background task on the DTS server. When the report is completed, you will be notified via email at your report has been created with instructions on how the report can be accessed for viewing and downloading. The amount of time it takes for the report to run depends on the number of reports waiting to process and the number of travelers using the system. Certain reports run at specific times to balance system load. Your report is scheduled to run on Jun 1, 2022 10:15:21 AM

Figure 4: Report Scheduler Process Definition Screen

- DTS creates the report by the date and time and emails (Figure 5) you when the report is ready.
