DEFENSE INTELLIGENCE AGENCY

## REPORT NOTICE

### **Evaluation of Analytic Tradecraft Standards, Project 2022-2005**

We evaluated the Defense Intelligence Agency's (DIA's) application of Analytic Tradecraft Standards. Our objective was to assess whether DIA's analytic tradecraft programs were designed, implemented, and overseen in accordance with applicable higher-level governance, including Intelligence Community Directive 203, "Analytic Standards," January 2, 2015, as amended. We issued the results of our evaluation, along with one recommendation, in a final report dated March 31, 2023.
