This update summarizes recent DoD Office of Inspector General (OIG) oversight activities related to DoD support to Ukraine. Below are a few highlights.

On March 29, DoD Inspector General (IG) Robert P. Storch and his counterparts from the Department of State (State) and the U.S. Agency for International Development (USAID) Offices of Inspector General testified in front of the House Foreign Affairs Committee on oversight, transparency, and accountability of U.S. assistance to Ukraine.

During his testimony, IG Storch provided details on the Ukraine Oversight Interagency Working Group's coordinated approach to comprehensive oversight and a summary of the DoD OIG's past, present, and future oversight work in this area.

Additionally, in coordination with State and USAID OIGs, the DoD OIG released the Joint Oversight Of The Ukraine Response in late March. This report covers the whole-of-government effort to conduct independent, comprehensive oversight of the \$113 billion appropriated for the U.S. government's Ukraine response since Russia's February 2022 invasion, and fulfills reporting requirements under Sec. 1247 of the James M. Inhofe National Defense Authorization Act for FY 2023 and Sec. 1707 of the Consolidated Appropriations Act, 2023.
