

**NOTICE OF AVAILABILITY
DRAFT ENVIRONMENTAL ASSESSMENT
FOR A BERTHING FACILITY AT
NAVAL BASE CORONADO, CAMP MICHAEL MONSOOR
LA POSTA, CALIFORNIA**

The United States Department of the Navy (Navy) announces the availability, and invites public comments on, the Draft Environmental Assessment (EA) analyzing the proposed construction of a berthing facility to accommodate up to 120 personnel at Naval Base Coronado's Camp Michael Monsoor (CMM) in La Posta, California. A berthing facility is a location that provides basic accommodations for transient personnel to sleep, eat, and perform other basic daily functions. Providing berthing facilities with sufficient accommodations and capacity would reduce travel time for personnel training at CMM and maximize their training opportunities.

The Draft EA describing the Proposed Action is available at <https://www.cnrc.navy.mil/navysouthwestprojects>. A hard copy of the Draft EA is also available at the San Diego County Library – Campo Morena Village Branch located at 31356 Highway 94, Campo, CA 91906. The Navy encourages your comments on the Draft EA, along with supporting rationale that the responsible official should consider in reaching a decision. It is the responsibility of persons providing comments to submit them by the close of the comment period. Written comments concerning this action will be accepted through September 5, 2023. Written comments may be mailed to: CMM EA MILCON Architect, NSWCEN N44 Facilities, 2446 Trident Way, B-638 (R100), Coronado, CA 92155-5494. Written comments may also be submitted electronically to jesse.w.martinez1.civ@us.navy.mil.

Comments received in response to this request for comment, including the name and address of those who comment, will be considered part of the public record for this project and will be available for public inspection and will be released if requested under the Freedom of Information Act.
