

# Southwestern Division Dam Safety Production Center

*A centralized source of Civil, Geotechnical, Structural, Geological, H&H, Construction, and Cost Engineering expertise serving primarily non-routine dam safety modification projects throughout the nation in support of the RMC, MMC, and the DSMC, and HQ USACE.*

## Looking for two GS-13 Geotechnical Engineers to Join our Team!

### The Dam Safety Production Center

- Multidiscipline organization with Civil, Construction, Cost, Geotechnical, Hydraulic & Hydrology, and Structural Engineers focused on major Dam and Levee modification projects throughout the United States.
- Support projects across the USACE Southwestern Division.
- Established in 2011 with staff located in Tulsa, Oklahoma and Little Rock, Arkansas.

### What we do

The DSPC provides technical resources capable of consistently delivering complex, non-routine dam and levee safety modifications to include:

- Dam and Levee Safety Risk Assessments and Modification Studies (DSMS).
- Pre-Construction Engineer and Design (PED).
- Engineering Support During Construction (EDC).
- Other Dam and Levee Safety Support to the Southwestern Division, Risk Management Center, Mapping and Modeling and Consequences Center, Dam Safety Modification Center and HQ USACE.

**USACE Mission:** Deliver vital public and military engineering services; partnering in peace and war to strengthen our Nation's economy and reduce risks from disasters.

### Federal Employee Benefits

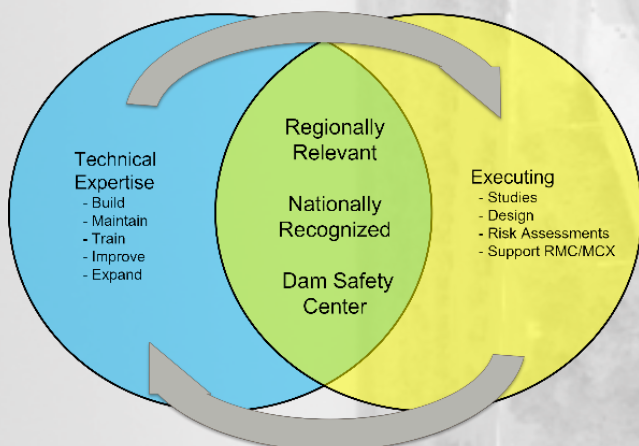

- Special salary rate (engineers)
- Recruitment incentives
- Student loan repayment
- Professional development
- Post-Grad degree opportunities
- Work-life balance
  - 11 Federal holidays/year
  - Paid time off (annual leave and sick leave)
  - 12 weeks of paid parental leave for birth of a child (both parents)
  - Flexible telework options
  - Retirement pension, up to 5% matching 401K contributions (Thrift Savings Plan)
  - Affordable health, dental, and vision insurance
