

# PREPPING the LINE

**Prepping the Line** prepares front-line leaders at every level to perform in accordance with the Major Graded Areas: Executing the Mission, Leading People, Improving the Unit, and Managing Resources.

When Airmen graduate ALS, we expect they are ready to perform tasks in support of our most important weapon system, **Our Airmen**, without validation.

Senior leaders agree we need something to close the gap on education and training for our new supervisors before they begin to take on duties as a **supervisor**.

The supplemental **PTL Job Qualification Standard** provides a training plan on items like Air Force Standards, conducting feedback, writing 1206s & evaluations, progressive discipline and much more.
