Transmittal No. 23-75

**Lithuania – AIM-120C-8 Advanced Medium-Range Air-to-Air Missiles  
(AMRAAM)**

WASHINGTON, October 23, 2023 - The State Department has made a determination approving a possible Foreign Military Sale to the Government of Lithuania of AIM-120C-8 Advanced Medium-Range Air-to-Air Missiles (AMRAAM) and related equipment for an estimated cost of \$100 million. The Defense Security Cooperation Agency delivered the required certification notifying Congress of this possible sale today.

The Government of Lithuania has requested to buy thirty-six (36) AIM-120C-8 Advanced Medium Range Air-to-Air Missiles (AMRAAM); and one (1) AIM-120C-8 AMRAAM Guidance Section. Also included are Common Munitions Built-In-Test (BIT)/Reprogramming Equipment (CMBRE); ADU-891/E adapter group computer test sets; AIM-120 spare control sections and containers; other spare parts, consumables, accessories, and repair/return support; munitions support and support equipment; classified software delivery and support; classified and unclassified publications and technical documentation; contractor logistics support (CLS); personnel training and training equipment; studies and surveys; transportation support; U.S. Government and contractor engineering, technical, and logistics support services; and other related elements of logistics and program support. The estimated total cost is \$100 million.

This proposed sale will support the foreign policy and national security of the United States by helping to improve the security of a NATO Ally that is an important force for ensuring peace and stability in Europe.

This proposed sale will be for use with the National Advanced Surface-to-Air Missile System (NASAMS) and will improve Lithuania's capability to conduct self-defense and regional security missions while enhancing interoperability with the U.S. and other NATO members. Lithuania will have no difficulty absorbing these articles and services into its armed forces.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The principal contractor will be Raytheon Missiles and Defense, Tucson, AZ. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will not require the assignment of any additional U.S. Government or contractor representatives to Lithuania.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

The description and dollar value are for the highest estimated quantity and dollar value based on initial requirements. Actual dollar value will be lower depending on final requirements, budget authority, and signed sales agreement(s), if and when concluded.

All questions regarding this proposed Foreign Military Sale should be directed to the State Department's Bureau of Political Military Affairs, Office of Congressional and Public Affairs, [pm-cpa@state.gov](mailto:pm-cpa@state.gov).
