Transmittal No. 16-71

The Philippines – AN/SPS-77 Sea Giraffe 3D Air Search Radars

WASHINGTON, Dec. 14, 2016 - The State Department has made a determination approving a possible Foreign Military Sale to the Government of the Philippines for AN/SPS-77 Sea Giraffe 3D Air Search Radars and related equipment, support, and training. The estimated cost is \$25 million. The Defense Security Cooperation Agency delivered the required certification notifying Congress of this possible sale on December 12, 2016.

The Government of the Philippines has requested a possible sale of two (2) AN/SPS-77 Sea Giraffe 3D Air Search Radars, support services, including installation services, operator training, system operational testing, and documentation. The total estimated program cost is \$25 million.

The Philippines seeks to increase its Maritime Domain Awareness (MDA) capabilities in order to improve monitoring of its vast territorial seas and Exclusive Economic Zones (EEZ). An effective Philippine MDA capability strengthens its self-defense capabilities and supports regional stability and U.S. national interests. This sale is consistent with U.S. regional objectives and will further enhance interoperability with the U.S. Navy, build upon a longstanding cooperative effort with the United States, and provide an enhanced capability with a valued partner in a geographic region of critical importance to the U.S. government.

The AN/SPS-77 Air Search Radars will be used to provide an enhanced ability to detect and track air contacts. The radars will be installed on two Hamilton-class cutters acquired through the Excess Defense Articles (EDA) program. The Philippines will have no difficulty absorbing this equipment into its armed forces.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The principal contractor will be VSE and Saab. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will not require the assignment of any U.S. or contractor representatives to the Philippines. U.S. contractors, under U.S. government oversight, will be in the Philippines for installation and associated support of this new radar on these Philippine Navy ships.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

This notice of a potential sale is required by law and does not mean the sale has been concluded.

All questions regarding this proposed Foreign Military Sale should be directed to the State Department's Bureau of Political Military Affairs, Office of Congressional and Public Affairs, pm-cpa@state.gov.
