The objective of this evaluation is to assess the effectiveness of the DoD's implementation of electromagnetic pulse shielding (EMP) for U.S. Indo-Pacific Command mission critical systems. We may revise the objective as the evaluation proceeds, and we will also consider suggestions from management for additional or revised objectives. We plan to perform this evaluation in accordance with Council of the Inspectors General on Integrity and Efficiency "Quality Standards for Inspection and Evaluation."

The second point of contact should be a member of the Senior Executive Service or a General/Flag Officer who is responsible for EMP shielding requirement development, implementation, and oversight; and could serve as a point of engagement with DoD Office of Inspector General senior leaders, if necessary.
