Transmittal No. 24-20

## **Kingdom of Morocco – Advanced Medium Range Air-to-Air Missiles**

WASHINGTON, December 20, 2024 - The State Department has made a determination approving a possible Foreign Military Sale to the Kingdom of Morocco of Advanced Medium Range Air-to-Air Missiles and related equipment for an estimated cost of \$88.37 million. The Defense Security Cooperation Agency delivered the required certification notifying Congress of this possible sale today.

The Kingdom of Morocco has requested to buy up to thirty (30) AIM-120C-8 Advanced Medium Range Air-to-Air Missiles (AMRAAM) and one (1) AIM-120C-8 AMRAAM guidance section. Also included are AMRAAM telemetry kits, control section spares, and containers; Common Munitions Built-in-Test Reprogramming Equipment (CMBRE); ADU-891 Computer Test Set Adapter Groups; munitions support and support equipment; classified software delivery and support; spare parts, consumables, accessories, and repair and return support; transportation support; classified publications and technical documentation; studies and surveys; U.S. Government and contractor engineering, technical, and logistics support services; and other related elements of logistics and program support. The estimated total cost is \$88.37 million.

This proposed sale will support the foreign policy and national security of the United States by helping to improve the security of a major non-NATO Ally that continues to be an important force for political stability and economic progress in North Africa.

The proposed sale will improve the Kingdom of Morocco's capability to meet current and future threats by ensuring it has modern, capable air-to-air munitions to meet its mission in securing its borders and territorial waters, countering terrorism and illicit trafficking, and using its newly acquired F-16 Block 72 fleet. The Kingdom of Morocco will have no difficulty absorbing this equipment into its armed forces.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The prime contractor will be RTX Corporation located in Tucson, AZ. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will not require the assignment of any additional U.S. Government or contractor representatives to the Kingdom of Morocco.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

The description and dollar value are for the highest estimated quantity and dollar value based on initial requirements. Actual dollar value will be lower depending on final requirements, budget authority, and signed sales agreement(s), if and when concluded.

All questions regarding this proposed Foreign Military Sale should be directed to the State Department's Bureau of Political Military-Affairs, Office of Congressional and Public Affairs, [pm-cpa@state.gov](mailto:pm-cpa@state.gov).
