

**RECORD OF DECISION  
NOW AVAILABLE FOR  
INSTALLATION RESTORATION SITE 32  
Former Naval Air Station Alameda,  
Alameda Point, California**

The Department of the Navy and the U.S. Environmental Protection Agency, in coordination with the California Department of Toxic Substances Control, and San Francisco Bay Regional Water Quality Control Board announced the final remedy for Installation Restoration (IR) Site 32 on September 1, 2023. The remedy is presented in the Final Record of Decision (ROD) and requires remedial action including scanning and removing radiological objects that exceed project thresholds, installation of a 3-foot soil cover across the site, wetland mitigation and institutional controls restricting intrusive activities and the use of groundwater at the site. Future land use will also be restricted to recreational use only.

The IR Site 32 Final ROD is available on the Navy's Base Realignment and Closure (BRAC) Program Management Office website at <https://www.bracpmo.navy.mil/BRAC-Bases/California/Former-Naval-Air-Station-Alameda/>

The Final ROD is available for public review at three locations:
