Apparently they were compensated because a trust was established for me in 1985, when the first suit was filed. My dad passed away in 2017 and my mother told me I was disinherited. I continued to do some research and came across a report of marine accident, injury or death. I worked for my parents for many years and we never had a casualty. I pray you can be of assistance. I sincerely appreciate you. God bless you	-	(b) (6)

06/14/2022	2022-CGFO-01831	I am looking for USCG case file information regarding the capsizing of a USCG RHI during the requested date range. The incident likely occurred around March 13, 1993 (give or take a couple of days). The USCG Station Key West boat crew went to survey a freighter that had run aground off of Key West, near or on the Western Sambo Reef. The boat crew of five people arrived at the ship and were assessing the situation when the RHI capsized in rough seas. The crew members were eventually pulled aboard the freighter and subsequently airlifted by a U.S. Navy helicopter. There were no casualties as a result of this incident, however the RHI boat was damaged and had to be towed back to base. I was one of the crew members on board the boat when it capsized. I am looking for the investigative paperwork (with photographs if applicable) that was completed as a	-	Boone, Kelly
