**Telephone:** +1 617-865-5234 **Phone Conference code:** 420 551 109#

The Naval Facilities Engineering Systems Command Base Realignment and Closure Office (NAVFAC BRAC PMO) announces a meeting of the Former Naval Construction Battalion Center (NCBC) Davisville Restoration Advisory Board (RAB). We are conducting a hybrid meeting where attendees can participate either in person at the Quonset Development Corporation (QDC) Annex Building or remotely via the Teams meeting link provided above.

The former NCBC is located 15 miles south of Providence in Washington County. A portion of the former NCBC property was transferred from the Navy to the Town of North Kingstown and Rhode Island Economic Development Corporation, and a portion is retained by the Navy pending future transfer (much of this area is being leased to QDC). The Navy will provide updates and/or status reviews for ongoing activities to include long-term monitoring at three sites (Site 7 – Calf Pasture Point, Site 9 – Allen Harbor Landfill, and Site 16 – Former Creosote Dip Tank, Former Fire-Fighting Training Area, and former Building 41), land use control and inspection summaries, and environmental investigations at OU10 Outfall and Parcel 7B Snake Pit Area. Meeting material will be available by request.

For questions or additional information, please contact Base Realignment and Closure (BRAC) Program Management Office East, Environmental Coordinator, ATTN: Mr. Chris Harding, (215) 897- 4904, [christopher.l.harding4.civ@us.navy.mil](mailto:christopher.l.harding4.civ@us.navy.mil).
