VIRTUAL RAB MEETING ANNOUNCEMENT

The Department of Navy (DON) invites interested members of the public to attend a meeting with members of the Restoration Advisory Board (RAB) made up of representatives from the local community, Navy, Federal and State regulatory agencies. The DON encourages the public to keep informed about the Navy environmental cleanup at the Former Naval Air Station Moffett Field in Mountain View, California.

The DON and the community co-chair member have agreed on a virtual meeting format. The virtual meeting will include presentations and project updates, and afterwards the Navy presenters will answer technical questions. The DON presentations will focus only on the limited portion of Moffett Field property where the Navy retains cleanup responsibility. Community members who are unable to participate in the virtual meeting may review the presentations and provide input to the environmental restoration process by contacting the Navy contact listed below.
