Transmittal No. 25-28

### **Israel – Eitan Powerpack Engines**

WASHINGTON, April 14, 2025 - The State Department has made a determination approving a possible Foreign Military Sale to the Government of Israel of Eitan Powerpack Engines and related equipment for an estimated cost of \$180 million. The Defense Security Cooperation Agency delivered the required certification notifying Congress.

The Government of Israel has requested to buy additional Eitan 8V199TE21-D powerpack engines and engine components that will be added to a previously implemented case whose value was under the congressional notification threshold. The original Foreign Military Sales (FMS) case, valued at \$85.5 million (\$0 in MDE), included Eitan 8V199TE21-D powerpack engines and engine components; U.S. Government and contractor technical assistance; contractor non-recurring engineering; and other related elements of logistics and program support. This notification is for a combined notification of non-MDE Eitan 8V199TE21-D powerpack engines and engine components; U.S. Government and contractor technical assistance; contractor non-recurring engineering; and other related elements of logistics and program support. The estimated total cost is \$180 million.

The United States is committed to the security of Israel, and it is vital to U.S. national interests to assist Israel to develop and maintain a strong and ready self-defense capability. This proposed sale is consistent with those objectives.

The proposed sale will enhance Israel's capability to meet current and future threats by improving its ability to defend Israel's borders, vital infrastructure, and population centers. This proposed sale will increase the interoperability with U.S. forces and conveys U.S. commitment to Israel's security and armed forces modernization. Israel will have no difficulty absorbing this equipment into its armed forces.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The principal contractor will be Rolls-Royce Solutions America, Inc., located in Novi, MI. At this time, the U.S. Government is not aware of any offset agreement proposed in connection with this potential sale. Any offset agreement will be defined in negotiations between the purchaser and the contractor.

Implementation of this proposed sale will not require the assignment of any additional U.S. Government or contractor representatives to Israel.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

The description and dollar value are for the highest estimated quantity and dollar value based on initial requirements. Actual dollar value will be lower depending on final requirements, budget authority, and signed sales agreement(s), if and when concluded.

All questions regarding this proposed Foreign Military Sale should be directed to the State Department's Bureau of Political Military-Affairs, Office of Congressional and Public Affairs, [pm-cpa@state.gov](mailto:pm-cpa@state.gov).
