## **Romania – PATRIOT Air Defense System**

WASHINGTON, April 28, 2025 - The State Department has made a determination approving a possible Foreign Military Sale to the Government of Romania of a PATRIOT Air Defense System and related equipment for an estimated cost of \$280 million. The Defense Security Cooperation Agency delivered the required certification notifying Congress of this possible sale today.

The Government of Romania has requested to buy one (1) AN/MPQ-65 Configuration 3+ Increment 3 radar set; one (1) AN/MSQ-132 Engagement Control Station; two (2) M903 launching stations; and one (1) Electrical Power Plant (EPP) III. The following non-MDE items will also be included: launching station modification kits; PATRIOT Advanced Capability-3 (PAC-3) Missile Segment Enhancement launcher conversion kit; generators; generator spare parts; prime movers; spare parts for prime movers; KG-250X encryptor; AN/TPX-57v1 identification friend or foe (IFF); KIV-77 encryptor; personnel communication equipment training; Defense Advanced Global Positioning Systems Receivers (DAGRs); U.S. Government and contractor representative technical assistance; engineering and logistics support services; publications and technical documentation; classified software; classified books and publications; and other related elements of logistics and program support. The estimated total cost is \$280 million.

This proposed sale will support the foreign policy goals and national security objectives of the United States by improving the security of a NATO Ally that is an important force for political and economic stability in Europe.

The proposed sale will improve Romania's capability to meet current and future threats by enabling it to field a credible force to deter adversaries and support its participation in NATO operations. Romania will have no difficulty absorbing this equipment into its armed forces.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The principal contractors will be RTX Corporation, located in Andover, MA, and Lockheed Martin, located in Bethesda, MD. At this time, the U.S. Government is not aware of any offset agreement proposed in connection with this potential sale. Any offset agreement will be defined in negotiations between the purchaser and the contractor.

Implementation of this proposed sale will require approximately five U.S. Government and five U.S. contractor representatives to travel to Romania for a duration of up to three years to support equipment fielding and training.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

The description and dollar value are for the highest estimated quantity and dollar value based on initial requirements. Actual dollar value will be lower depending on final requirements, budget authority, and signed sales agreement(s), if and when concluded.

All questions regarding this proposed Foreign Military Sale should be directed to the State Department's Bureau of Political Military-Affairs, Office of Congressional and Public Affairs, [pm-cpa@state.gov](mailto:pm-cpa@state.gov).
