(U) DIRgram-305: "A New Look for NSA.gov"

Distribution: Director's Message to the Work Force

POC: Michael V. Hayden [Redacted]

(U) One of the issues that has been very important to me during my tenure as Director of NSA is our public image. We have worked hard to ensure the public has a better understanding of NSA/CSS's missions, the people that make them possible, and the important role we play for America. As part of this initiative, I am pleased to announce that our external web presence, www.nsa.gov, is getting a facelift.

(b) (3) - P.L. 86-36

(U) The new site, set to launch on 24 February 2004, will have a high-tech appearance and contemporary technical infrastructure indicative of the NSA/CSS.

(U) I hope you will take some time to get familiar with the site and then share the experience with your families from your home computer.

MICHAEL V. HAYDEN
Lieutenant General, USAF
Director
