(U) In today's post-9/11 world, organizations with critical information must share with organizations that need it. As one of our Transformation 2.0 successes, I'm pleased to announce the Initial Operational Capability (IOC) of the Electromagnetic-Space Analysis Center, or E-Space.

~~(U//FOUO)~~ Established by the FY04 Defense Planning Guidance, E-Space will provide an actionable view of an adversary's electromagnetic space to the U.S. information operations (IO) community. When OSD asked NSA to serve as Executive Agent for E-Space, I readily accepted because I viewed this program as a natural bridge between the Nation's SIGINT and IO missions.
