

Military & Family Readiness Financial Milestones

Financial literacy is important to the Army: Soldiers who are financially fit are better able to fulfill the duties of the mission and report greater family satisfaction. Increased financial management issues affect Army and Family readiness. Financial literacy training provides the pathway for sustaining financial well-being and resiliency with benchmarks of meeting all financial responsibilities, building wealth, and obtaining a sound financial future, and a secure retirement. It provides Soldiers required training and resources to help avoid debt and create practical solutions for financial goals.” (U.S. Army, n.d).
