Transmittal No. 25-48

## **Ukraine – HAWK Phase III Missile System and Sustainment**

WASHINGTON, July 23, 2025 - The State Department has made a determination approving a possible Foreign Military Sale to the Government of Ukraine of HAWK Phase III Missile System and Sustainment and related equipment for an estimated cost of \$172 million. The Defense Security Cooperation Agency delivered the required certification notifying Congress.

The Government of Ukraine has requested to buy sustainment related articles and services for the HAWK missile system, including: five-ton cargo trucks; HAWK system spare parts; refurbishment and system overhaul of HAWK air defense fire units; tool kits; test equipment; support equipment; technical documentation; training; U.S. Government and contractor technical and field office support; U.S. Government and contractor technical assistance; storage containers and equipment related to spare parts storage; MIM-23 HAWK missile spare parts and missile repair; and other related elements of logistics and program support. The estimated total program cost is \$172 million.

This proposed sale will support the foreign policy goals and national security objectives of the United States by improving the ability of Ukraine to provide for its own defense.

This proposed sale will improve Ukraine's capability to meet current and future threats by further equipping it to conduct self-defense and regional security missions with a more robust air defense capability. Ukraine will have no difficulty absorbing these articles and services into its armed forces.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The principal contractors will be Sielman Corporation, located in Volos, Greece; RTX Corporation, located in Andover, MA; and PROJECTXYZ, located in Huntsville, AL. At this time, the U.S. Government is not aware of any offset agreement proposed in connection with this potential sale. Any offset agreement will be defined in negotiations between the purchaser and the contractor.

Implementation of this proposed sale will require temporary duty travel of an estimated five U.S. Government and fifteen contractor representatives to Ukraine.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

The description and dollar value are for the highest estimated quantity and dollar value based on initial requirements. Actual dollar value will be lower depending on final requirements, budget authority, and signed sales agreement(s), if and when concluded.

All questions regarding this proposed Foreign Military Sale should be directed to the State Department's Bureau of Political Military-Affairs, Office of Congressional and Public Affairs, [pm-cpa@state.gov](mailto:pm-cpa@state.gov).
