Transmittal No. 24-93

Egypt – National Advanced Surface-to-Air Missile System

WASHINGTON, July 24, 2025 - The State Department has made a determination approving a possible Foreign Military Sale to the Government of Egypt of National Advanced Surface-to-Air Missile System and related elements of logistics and program support for an estimated cost of \$4.67 billion. The Defense Security Cooperation Agency delivered the required certification notifying Congress of this possible sale today.

The Government of Egypt has requested to buy the National Advanced Surface-to-Air Missile System (NASAMS), that includes: four (4) AN/MPQ-64F1 Sentinel radar systems with associated support equipment; one hundred (100) Advanced Medium Range Air-to-Air Missiles (AMRAAM)-Extended Range (ER); one hundred (100) Air Intercept Missile (AIM)-120C-8 AMRAAMs; two (2) AIM-120C-8 AMRAAM guidance sections (spares); one (1) AMRAAM control section (spare); six hundred (600) AIM-9X Sidewinder Block II tactical missiles; one hundred fifty (150) AIM-9X Sidewinder Captive Air Training Missiles (CATMs); sixty-two (62) AIM-9X Sidewinder Block II tactical guidance units (GUs); and twenty (20) AIM-9X Sidewinder CATM GUs. The following non-MDE items will also be included: fire distribution centers (FDC); canister launcher systems; electrooptical/infrared systems; Tactical Control Center systems; NASAMS classroom trainer; communication node systems; IPS 250X High Assurance Internet Protocol Encryptions (HAIPE); Identification Friend or Foe (IFF) Model 5800 or TPX-61; KIV-77 IFF crypto appliqué; AN/PSN-13 Defense Advanced Global Positioning System Receivers (DAGRs) with Selective Availability Anti-Spoofing Module (SAASM); AN/PYQ-10 Simple Key Loaders (SKLs), code loaders, and cable sets; AMRAAM-ER Extended Load Trainers (ELTs); missile containers; weapon system support and test equipment; spare and repair parts, consumables, accessories, and repair and return support; publications and technical documentation; personnel training and training equipment; U.S. Government and contractor engineering, technical, and logistics support services; and other related elements of logistics and program support. The estimated total cost is \$4.67 billion.

This proposed sale will support the foreign policy goals and national security objectives of the United States by improving the security of a major non-NATO ally that is a force for political stability and economic progress in the Middle East.

The proposed sale will improve Egypt's capability to meet current and future threats by improving its ability to detect various air threats. Egypt will have no difficulty absorbing this equipment into its armed forces.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The prime contractor will be RTX Corporation, located in Andover, MA. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will require approximately twenty-six U.S. Government and thirty-four contractor representatives to travel to Egypt for an extended period for equipment de-processing/fielding, system checkout, training, and technical and logistics support.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

The description and dollar value are for the highest estimated quantity and dollar value based on initial requirements. Actual dollar value will be lower depending on final requirements, budget authority, and signed sales agreement(s), if and when concluded.

All questions regarding this proposed Foreign Military Sale should be directed to the State Department's Bureau of Political Military-Affairs, Office of Congressional and Public Affairs, pm-cpa@state.gov.
