Transmittal No. 25-54

**Ukraine – M109 Self-Propelled Howitzer Maintenance, Repair, and Overhaul Capability**

WASHINGTON, July 24, 2025 - The State Department has made a determination approving a possible Foreign Military Sale to the Government of Ukraine of M109 Self-Propelled Howitzer Maintenance, Repair, and Overhaul Capability and related equipment for an estimated cost of \$150 million. The Defense Security Cooperation Agency delivered the required certification notifying Congress.

The Government of Ukraine has requested to buy equipment and services for the refurbishment of M109 self-propelled howitzers, technical assistance, training, publications, and other related elements of logistics and program support. The estimated total cost is \$150 million.

This proposed sale will support the foreign policy goals and national security objectives of the United States by improving the ability of Ukraine to provide for its own defense.

The proposed sale will improve Ukraine's ability to meet current and future threats by further equipping it to conduct self-defense and regional security missions. Ukraine has an urgent need to strengthen local sustainment capabilities to maintain high operational rates for United States provided vehicles and weapon systems. An improved maintenance, repair, and overhaul capability will directly contribute to battlefield effectiveness through a more resilient and rapid repair cycle that will increase overall operational rates with reduced logistics and financial burdens. Ukraine will have no difficulty absorbing these articles and services into its armed forces.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The principal contractors will be BAE Systems, Daimler Truck North America, and Allison Transmission Inc., with all work occurring in Europe. At this time, the U.S. Government is not aware of any offset agreement proposed in connection with this potential sale. Any offset agreement will be defined in negotiations between the purchaser and the contractor.

Implementation of this proposed sale will not require the assignment of any additional U.S. Government or contractor representatives to Ukraine.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

The description and dollar value are for the highest estimated quantity and dollar value based on initial requirements. Actual dollar value will be lower depending on final requirements, budget authority, and signed sales agreement(s), if and when concluded.

All questions regarding this proposed Foreign Military Sale should be directed to the State Department's Bureau of Political Military-Affairs, Office of Congressional and Public Affairs, [pm-cpa@state.gov](mailto:pm-cpa@state.gov).
