

PUBLIC NOTICE

Published: June 18, 2025 Expires: August 2, 2025

Nashville and Memphis Districts

Nationwide Permits Reissuance Request for Comments

On June 18, 2025, the U.S. Army Corps of Engineers (Corps) published in the <u>Federal Register</u> its proposal to reissue 56 existing nationwide permits (NWPs) and issue one new NWP. One NWP is not proposed for reissuance.

NWPs are general permits issued on a nationwide basis to streamline the authorization of activities that result in no more than minimal individual and cumulative adverse environmental effects. Many of the proposed NWPs require notification to the district engineer before commencing those activities, to ensure that the activities authorized by those NWPs cause no more than minimal individual and cumulative adverse environmental effects.

National Issues Concerning the Proposed NWPs:

The <u>Federal Register</u> notice is the public's opportunity to comment on the proposed NWPs, general conditions, and definitions. Comments on national issues relating to these NWPs should be submitted to docket number COE-2025-0002 at **www.regulations.gov**, or by email to **2026nationwidepermits@usace.army.mil** or by mail to U.S. Army Corps of Engineers, Attn: CECW-CO-R, 441 G Street NW, Washington, DC 20314-1000. Instructions for submitting comments are provided in the June 18, 2025 <u>Federal Register</u> notice. Comments on the proposed NWPs are due by July 18, 2025.

Regional Issues Concerning the Proposed NWPs, Including Regional Conditioning:
Division engineers are authorized to add regional conditions specific to the needs and/or requirements of a particular region or state. Regional conditions are an important mechanism to help ensure that the adverse environmental effects of activities authorized by the NWPs are no more than minimal, both individually and cumulatively. Division engineers may also suspend or revoke specific NWPs in certain geographic areas (e.g., states or watersheds) or high-value aquatic systems where the adverse environmental effects caused by activities authorized by those NWPs may be more than minimal. An enclosure for this public notice (Enclosure 2) lists the proposed regional conditions currently under consideration for the State of Tennessee by the Lakes and Rivers and Mississippi Valley Divisions. The Nashville District, in cooperation with the Memphis District, is seeking comments on the proposed regional conditions and seeking comments on the need for additional regional conditions to help ensure that the adverse environmental effects of activities authorized by the proposed NWPs are no

more than minimal, individually and cumulatively. Unless otherwise noted, all proposed regional conditions listed on this enclosure are applicable for activities in State of Tennessee. Comments on regional issues relating to the proposed NWPs and proposed regional conditions should be sent to:

Nashville District – U.S. Army Corps of Engineers Regulatory Division Chattanooga Regulatory Field Office 2158 Northgate Park Lane Northgate Park II, Suite 216 Chattanooga, Tennessee 37415

Or via phone at (423) 394-5102 or email aric.j.payne@usace.army.mil. Comments relating to regional conditions are due by August 2, 2025. Similar public notices proposing regional conditions in other regions or states are being published concurrently by other division or district offices. After the final NWPs are issued, the final regional conditions will be issued after they are approved by the Division Commander.

401 Water Quality Certification and Coastal Zone Management Act:

States, tribes, and other certifying authorities will make their Clean Water Act Section 401 water quality certification (WQC) decisions after reviewing the proposed NWPs. States will make their Coastal Zone Management Act (CZMA) consistency determination decisions after reviewing the proposed NWPs.

Draft Decision Documents:

Draft decision documents for each of the proposed NWPs, which include environmental documentation prepared for the purposes of the National Environmental Policy Act, have been written by Corps Headquarters. The decision documents will address compliance of the NWPs with the requirements for issuance under the Corps' general permit authority. These draft decision documents, as well as the proposed NWPs, are available for viewing at **www.regulations.gov**, docket number COE-2025-0002. Final decision documents will be prepared for the NWPs that are issued.

Enclosed is an index of the proposed NWPs and conditions (Enclosure 1). Anyone wishing to provide comments may obtain a full text copy of the NWPs through the Corps Home Page at https://www.usace.army.mil/Missions/Civil-Works/Regulatory-Program-and-Permits/Nationwide-Permits/, at www.regulations.gov in docket number COE-2025-0002, or at the following Federal Register address: https://www.federalregister.gov/documents/2025/06/18/2025-11190/proposal-to-reissue-and-modify-nationwide-permits.

Enclosure 1:

Index of Proposed Nationwide Permits, General Conditions, and Definitions

Nationwide Permits

- 1. Aids to Navigation
- 2. Structures in Artificial Canals
- 3. Maintenance
- 4. Fish and Wildlife Harvesting, Enhancement, and Attraction Devices and Activities
- 5. Scientific Measurement Devices
- 6. Survey Activities
- 7. Outfall Structures and Associated Intake Structures
- 8. Oil and Gas Structures on the Outer Continental Shelf
- 9. Structures in Fleeting and Anchorage Areas
- 10. Mooring Buoys
- 11. Temporary Recreational Structures
- 12. Oil or Natural Gas Pipeline Activities
- 13. Bank Stabilization
- 14. Linear Transportation Projects
- 15. U.S. Coast Guard Approved Bridges
- 16. Return Water From Upland Contained Disposal Areas
- 17. Hydropower Projects
- 18. Minor Discharges
- 19. Minor Dredging
- 20. Response Operations for Oil or Hazardous Substances
- 21. Surface Coal Mining Activities
- 22. Removal of Vessels
- 23. Approved Categorical Exclusions
- 24. Indian Tribe or State Administered Section 404 Programs
- 25. Structural Discharges
- 26. [Reserved]
- 27. Aquatic Ecosystem Restoration, Establishment, and Enhancement Activities
- 28. Modifications of Existing Marinas
- 29. Residential Developments
- 30. Moist Soil Management for Wildlife
- 31. Maintenance of Existing Flood Control Facilities
- 32. Completed Enforcement Actions
- 33. Temporary Construction, Access, and Dewatering
- 34. Cranberry Production Activities
- 35. Maintenance Dredging of Existing Basins
- 36. Boat Ramps
- 37. Emergency Watershed Protection and Rehabilitation
- 38. Cleanup of Hazardous and Toxic Waste
- 39. Commercial and Institutional Developments
- 40. Agricultural Activities
- 41. Reshaping Existing Drainage Ditches

- 42. Recreational Facilities
- 43. Stormwater Management Facilities
- 44. Mining Activities
- 45. Repair of Uplands Damaged by Discrete Events
- 46. Discharges in Ditches
- 47. [Reserved]
- 48. Commercial Shellfish Mariculture Activities
- 49. Coal Remining Activities
- 50. Underground Coal Mining Activities
- 51. Land-Based Renewable Energy Generation Facilities
- 52. Water-Based Renewable Energy Generation Pilot Projects
- 53. Removal of Low-Head Dams
- 54. Living Shorelines
- 55. Seaweed Mariculture Activities
- 56. [Reserved]
- 57. Electric Utility Line and Telecommunications Activities
- 58. Utility Line Activities for Water and Other Substances
- 59. Water Reclamation and Reuse Facilities
- A. Activities to Improve Passage of Fish and Other Aquatic Organisms

Nationwide Permit General Conditions

- 1. Navigation
- 2. Aquatic Life Movements
- 3. Spawning Areas
- 4. Migratory Bird Breeding Areas
- 5. Shellfish Beds
- 6. Suitable Material
- 7. Water Supply Intakes
- 8. Adverse Effects from Impoundments
- 9. Management of Water Flows
- 10. Fills Within 100-Year Floodplains
- 11. Equipment
- 12. Soil Erosion and Sediment Controls
- 13. Removal of Temporary Fills
- 14. Proper Maintenance
- 15. Single and Complete Project
- 16. Wild and Scenic Rivers
- 17. Tribal Rights
- 18. Endangered Species
- 19. Migratory Birds and Bald and Golden Eagles
- 20. Historic Properties
- 21. Discovery of Previously Unknown Remains and Artifacts
- 22. Designated Critical Resource Waters
- 23. Mitigation
- 24. Safety of Impoundment Structures
- 25. Water Quality

- 26. Coastal Zone Management
- 27. Regional and Case-by-Case Conditions
- 28. Use of Multiple Nationwide Permits
- 29. Transfer of Nationwide Permit Verifications
- 30. Compliance Certification
- 31. Activities Affecting Structures or Works Built by the United States
- 32. Pre-Construction Notification

2026 Regional Conditions for Nationwide Permits STATE OF TENNESSEE

Regional General Conditions (Applicable to ALL Nationwide Permits):

- 1. Except for NWP 3 Maintenance, a PCN is required for all proposed activities in Exceptional Tennessee Waters and/or Outstanding National Resource Waters. A list of known Exceptional Tennessee Waters and Outstanding National Resource Waters can be obtained from the Tennessee Department of Environment and Conservation's website: https://tn.gov/environment/article/wrwater-resources-data-viewer. A map of known Exceptional Tennessee Waters and Outstanding National Resource Waters can be obtained from the Tennessee Department of Environment and Conservation's website: http://tdeconline.tn.gov/dwr/.
- 2. For planting or re-vegetation activities, utilize only non-invasive plant species.
- 3. A PCN is required for all proposed activities located 500 feet upstream or downstream of a safety harbor, located within the area between the upstream and downstream arrival points of any Corps of Engineers lock and/or dam, within 1,500 feet of any federal mooring, or within 1,000 feet of a first class landing. The Inland Electronic Navigational Charts (IENC) dataset is updated bimonthly, and information on the location of these inland navigation infrastructure locations can be obtained from: https://ienccloud.us/.

Nationwide Permit-Specific Regional Conditions:

- 8. Oil and Gas Structures on the Outer Continental Shelf Suspended
- 12. Oil or Natural Gas Pipeline Activities

PCN in accordance with NWP General Condition 32 is required for all proposed blasting within waters of the U.S.

- 24. Indian Tribe or State Administered Section 404 Program Suspended
- 35. Maintenance Dredging of Existing Basins

PCN in accordance with NWP General Condition 32 is required is required for regulated activities in Section 10 waters.

- 48. Commercial Shellfish Mariculture Activities Suspended
- 54. Living Shorelines Suspended
- 55. Seaweed Mariculture Activities Suspended
- 57. Electric Utility Line and Telecommunications Activities

PCN in accordance with NWP General Condition 32 is required for all proposed blasting within waters of the U.S.

58. Utility Line Activities for Water and Other Substances

PCN in accordance with NWP General Condition 32 is required for all proposed blasting within waters of the U.S.
