Transmittal No. 25-107

India – Excalibur Projectiles

WASHINGTON, November 19, 2025 - The State Department has made a determination approving a possible Foreign Military Sale to India of Excalibur Projectiles and related equipment for an estimated cost of \$47.1 million. The Defense Security Cooperation Agency delivered the required certification notifying Congress.

The Government of India has requested to buy up to two hundred sixteen (216) M982A1 Excalibur tactical projectiles. The following non-MDE items will also be included: ancillary items; Portable Electronic Fire Control Systems (PEFCS) with Improved Platform Integration Kit (iPIK); primers; propellant charges; U.S. Government technical assistance; technical data; repair and return services; and other related elements of logistics and program support. The estimated total cost is \$47.1 million.

This proposed sale will support the foreign policy and national security objectives of the United States by helping to strengthen the U.S.-Indian strategic relationship and to improve the security of a major defense partner which continues to be an important force for political stability, peace, and economic progress in the Indo-Pacific and South Asia regions.

The proposed sale will improve India's capability to meet current and future threats by providing precision capability equipment, which will increase first strike accuracy in its brigades. India will have no difficulty absorbing these articles and services into its armed forces.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The principal contractor will be RTX Corporation, located in Arlington, VA. At this time, the U.S. Government is not aware of any offset agreement proposed in connection with this potential sale. Any offset agreement will be defined in negotiations between the purchaser and the contractor.

Implementation of this proposed sale will not require the assignment of any additional U.S. Government or contractor representatives to India.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

The description and dollar value are for the highest estimated quantity and dollar value based on initial requirements. Actual dollar value will be lower depending on final requirements, budget authority, and signed sales agreement(s), if and when concluded.

All questions regarding this proposed Foreign Military Sale should be directed to the State Department's Under Secretary of State for Arms Control and International Security, Political-Military Affairs Outreach, at T_Outreach_PM@state.gov.
