Transmittal No. 25-71

Republic of Korea – AGM-65G2 Maverick Tactical Missiles

WASHINGTON, October 01, 2025 - The State Department has made a determination approving a possible Foreign Military Sale to the Republic of Korea of AGM-65G2 Maverick Tactical Missiles and related equipment for an estimated cost of \$34 million. The Defense Security Cooperation Agency delivered the required certification notifying Congress of this possible sale today.

The Republic of Korea has requested to buy forty-four (44) AGM-65G2 Maverick tactical missiles. The following non-Major Defense Equipment items will be included: U.S. Government and contractor engineering; technical, and logistics support services; and other related elements of logistics and program support. The estimated total cost is \$34 million.

This proposed sale will support the foreign policy and national security objectives of the United States by improving the security of a major ally that is an important force for political stability and economic progress in the Indo-Pacific region.

This proposed sale will improve the Republic of Korea's capability to meet current and future threats by increasing its critical air defense capability to deter aggression in the region and to ensure interoperability with U.S. forces. The Republic of Korea already has Maverick missiles in its inventory and will have no difficulty absorbing these articles into its armed forces.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The principal contractor will be RTX Corporation, located in Arlington, VA. The purchaser typically requests offsets. At this time, the U.S. Government is not aware of any offset agreement proposed in connection with this potential sale. Any offset agreement will be defined in negotiations between the purchaser and the contractor.

Implementation of this proposed sale will not require the assignment of any additional U.S. Government or contractor representatives to the Republic of Korea.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

The description and dollar value are for the highest estimated quantity and dollar value based on initial requirements. Actual dollar value will be lower depending on final requirements, budget authority, and signed sales agreement(s), if and when concluded.

All questions regarding this proposed Foreign Military Sale should be directed to the State Department's Under Secretary of State for Arms Control and International Security, Political-Military Affairs Outreach, at T_Outreach_PM@state.gov.
