119898	1/8/2025	In November 2024, the House Committee on Oversight and Accountability conducted a hearing titled "Unidentified Anomalous Phenomena: Exposing the Truth". The expert panel consisted of retired Navy Rear Admiral Dr. Tim Gallaudet, former Department of Defense official Luis Elizondo, former NASA associate administrator of space policy Michael Gold, and journalist Michael Shellenberger. Congresswoman Lauren Boebert questioned the panel about rumors of a secretive project within the Department of Defense involving the existence of secret underwater alien bases and the veracity of "rumors that have come up to the Hill" about government experiments creating "hybrid" humans with enhanced capabilities. As a FOIA request, I am asking to receive the following information: 1) any available reports suggestive of sightings and/or investigations involving such projects involving underwater alien bases; 2) any communications either by e-mail, text, written reports, or telephone communications referring to this topic between Congresswoman Boebert, other members of the House Committee on Oversight and Accountability and their staffs and/or the expert panel members, or other employees of the Department of Defense; and 3) any proposed plans for further investigations on this topic requested by Congresswoman Boebert or the House Committee on Oversight and Accountability. 119970	1/21/2025	<p>Request for any records the National Security Agency (NSA) holds regarding these drone sightings. My main focus is on identifying any possible connections between these drones and foreign adversaries, such as China, Russia, or other nations of concern. I would greatly appreciate access to any relevant information, including surveillance data, intelligence reports, security assessments, and interagency communications that could shed light on the origins and implications of these sightings. Specifically, I am interested in records pertaining to the identification and analysis of drones observed over sensitive U.S. sites, such as military bases, nuclear facilities, and critical infrastructure. Were these drones assessed for unusual behavior, unaccounted-for technology, or potential foreign involvement? Were there incidents where these drones were flagged for surveillance or classified as threats to national security? Furthermore, I would like to request documents related to any evaluations of whether these drones were suspected of being linked to foreign powers -- particularly China, given the geopolitical tensions and concerns surrounding Chinese technology. If these assessments were made, I would appreciate reviewing the corresponding documentation.</p> <p>Additionally, I am seeking any communication between the NSA and other federal agencies, such as the Department of Homeland Security (DHS), the Federal Aviation Administration (FAA), the Department of Defense (DoD), or intelligence agencies. These communications may provide insights into interagency efforts to track, investigate, or respond to drone activity. If the NSA worked alongside other agencies to determine whether these drones posed a national security threat, I would like to see those records, as well as any countermeasures considered or implemented in response.</p> <p>Of particular interest are any national security implications tied to the drone sightings. I would appreciate seeing any evaluations or intelligence reports regarding potential threats these drones may have posed to U.S. defense infrastructure. Were these drones suspected of performing espionage, gathering intelligence, or posing a risk to sensitive technologies? What countermeasures were proposed or employed by the NSA or other agencies to neutralize these potential threats? Additionally, if there were any briefings or public statements made regarding the drone sightings, I would like to request copies of those as well.</p> <p>Date Range: January 1, 2024 - December 31, 2024</p>	Neither Confirm Nor Deny
